AUCTION SALES.

lew of the fact that so many conveyan- wadays are recorded at a nominal con- ion, we believe that the indexing of the n Sales will be appreciated, because ot only tell the price at which property ually selling, but they also indicate, as s possible, what the property is liable to in the open market, or at forced sale. appearing before any number indicates age on which to find an Auction Sale; istance, see Ann st, from Nassau to Will- .*939.

CONVEYANCES.

many instances there will be found ts, etc., indexed under pages which, on g examined, show at once that they are in their proper order according to our cus- ary alphabetical and numerical arrange- nt. A further examination will disclose the t that while the properties appear more minently under other street descriptions, ey nevertheless extend to the streets, etc., licated by the Index and having a frontage same have been included in the paging. gain, it occasionally occurs that one deed ill describe property conveyed in fee and so property under lease. As each has been dexed with or without parenthesis as re- uired by its description it will be found at imes that a parcel is not in its proper alpha- etical or numerical position and it will ne- essitate a somewhat more thorough search han usual to locate it. The Leases, Mort- gages, Auction Sales and Projected Buildings are indexed in a similar manner to the plan followed with the Conveyances.

LEASES.

Note.—The figures in parenthesis—for instance, page (762) under the head of Ann st, from Park row to Nassau st—denote that the transaction on the page given is Leasehold, an assignment of lease or a lease running for a short or long term of years. This explanation is made so that subscribers searching for transfers in fee can at once distinguish between the former and the latter without referring to the pages mentioned.

MORTGAGES.

All the mortgages are indexed against the street or avenue in which the property is located, and memoranda added to enable searchers to find the particulars in "The Record and Guide." For example, Bank st, from Greenwich to West st appears followed by W 640. This means that a mortgage against the property on Greenwich st appears on page 640 and "W" is the initial letter of the mortgagor or borrower. The streets and avenues are so subdivided that very few references are necessary. All readers of the "Record and Guide" are aware that the mortgages appear weekly in alphabetical order, so that they have, so to speak, a weekly index of mortgagors. This publication of an index against property completes the information which those interested may require.

PROJECTED BUILDINGS

Are included under the same general heading, and are distinguished by the † which precedes the numbering.

CORPORATION SALE OF REAL ESTATE.

PUBLIC NOTICE IS HEREBY GIVEN THAT the Commissioners of the Sinking Fund of the City of New York, by virtue of the powers vested in them by law, will offer for sale, at public auction, on Wednesday, July 15, 1896, at 12 o'clock m., at the New York Real Estate Salesroom, No. 111 Broadway, the following described lots, pieces or parcels of real estate belonging to the Corporation of the City of New York, viz.: Four (4) lots on the south side of One Hundred and Fifty-first street, between Convent and Amsterdam avenues, Block 1077, Ward Nos. 50, 51, 52 and 53, each 25 feet front and 99 feet 11 inches deep.

One (1) lot on the south side of One Hundred and Fifty-first street, between Convent and Amsterdam avenues, Block 1077, Ward No. 49, 25 feet front on One Hundred and Fifty-first street, 99 feet 11 inches deep on the westerly side, 18 feet 5¼ inches in the rear on the southerly side, 16 feet 5 inches on the Convent avenue and 84 feet 10 inches on the easterly side.

One (1) triangular lot on Convent avenue and One Hundred and Fiftieth street, Block 1077, Ward Nos. 15 and 16, 108 feet 11⅝ inches front on Convent avenue, 99 feet 11 inches deep on the westerly side and 43 feet 5¼ inches on the northerly side thereof, and containing 1.735 city lots. The several parcels of the said property being shown on a map thereof prepared by Eugene E. McLean, Engineer of the Finance Department, dated April 29, 1896, and numbered respectively thereon Nos 1, 2, 3, 4, 5 and 6.

Terms and Conditions of Sale:

The City shall retain the right to maintain forever the new Aqueduct under the aforesaid lots and all the rights pertaining or necessary to [illegible] under the said lots, and no excavation shall ever [illegible] (30) feet vertically distant from [illegible] below a point thirty grade of the street. [illegible] the established

The highest bidders will be required to [illegible] ten (10) per cent of the purchase-money and the auctioneer's fee on each lot immediately after the sale; thirty (30) per cent upon the delivery of the deeds, within thirty days from the date of sale; and the balance, sixty (60) per cent of the purchase-money, or any portion thereof may remain, at the option of the purchaser, on bond and mortgage, for five years, with interest at the rate of six per cent per annum, payable semi-annually, the mortgages to contain the customary thirty days' interest and ninety days' tax clauses.

The bond and mortgage may be paid off at any time within the term thereof on giving thirty days' notice to the Comptroller, or it may be paid by installments of not less than five hundred dollars, on any day when the interest is due, or on thirty days' notice. The bonds and mortgages will be prepared by the Counsel to the Corporation, and the sum of twelve dollars and fifty cents will be charged for drawing, acknowledging and recording each separate mortgage. If more than one lot of land is included in any mortgage, the whole mortgage must be paid off before any release can be given by the Corporation, as a release of any part of the premises included in a mortgage to the Corporation is forbidden by law.

The Comptroller may, at his option, resell any lot which may be struck off to the highest bidder who may fail to comply with the terms of sale, and the party who may fail to comply therewith will be held liable for any deficiency that may result from any such resale.

The right to reject any bid is reserved.

Lithographic maps of said real estate may be had at the Comptroller's Office, Stewart Building, No. 280 Broadway, after June 15, 1896.

By order of the Commissioners of the Sinking Fund, under a resolution adopted at a meeting of the Board held May 28, 1896.

ASHBEL P. FITCH, Comptroller.

City of New York, Finance Department, Comptroller's Office, June 8, 1896.

LUMBER.

Appended quotations are based almost wholly upon prices obtained for goods from first hands. Yard rates necessarily range much higher owing to the expenses attending sorting out and grading cargo and even car lots, besides which must be added the cost of handling and carrying until consumers are ready to invest. Terms of sale also prove important factors, and altogether it is impossible to give a line of retail quotations thoroughly reliable in character.

WHILE talking of a new building for one city department it is also pertinent to ask if anything is ever to be done to secure the safety of the mass of invaluable irreplacable records of the Register's Office? The treatment of these is one of the extraordinary anomalies of our times in this city. The question of the value of the records of deeds and mortgages in this department and the crying need for their deposit in a fire-proof building are never questioned for a moment; in fact only an imbecile would attempt to question them, and even he has not appeared up to this date. Yet they are allowed to remain year after year stored in wooden cases, on wooden shelves and in a building erected in times when there was apparently no idea that a building could be made fire-proof, or that there was any necessity for making it such. This state of things exists in a community that prides itself upon its practical and enterprising qualities. How we would laugh if one of our snappy correspondents abroad was to tell us that the most valuable public records of St. Petersburg were stored in a building, "so constructed that in case of fire it will be impossible to save any of the invaluable records of which it is the storehouse." One grand jury a few months ago made the remark quoted about the Register's Office and the peril in which its contents stand, and they were only echoing similar presentments made on other occasions. There is good reason why we do not laugh at this, but there is no reason why the occasion for such remarks should continue. Real estate interests are most concerned in this matter, and it is their duty to bring pressure to bear on the city government to end it at once. There should be no loss of time in setting about the provision of a fire-proof building for the Register's Office, and if, meantime, proper accommodations cannot be found for the records in his charge in one of the nearby buildings constructed according to modern ideas for protection against fire, such interior changes as are possible should at once be made in the present office to afford at least some measure of safety for its contents.

SUPERINTENDENT CONSTABLE'S application to the Sinking Fund Commissioners for an increase to the accommodations of the Department of Buildings, at No. 220 4th avenue, ought to receive attention. The department is one of growing importance, and its work, already very large, will undoubtedly grow as time goes on. Not only will the number of plans filed increase, but the character of the buildings as a whole will increase in the lines where the supervision of the department is most called for. The increase in the number of plans for fire-proof buildings proportionately increases the labors of Mr. Constable and his assistants as they require more time for their examination and checking of the calculations to satisfy the department that good construction is secured. To people who are acquainted with the space needed for examining plans, and for the accommodation of a large clerical force and, who also know what area of office space is now available to the department, Mr. Constable's request will appear to be one that is quite reasonable and should be immediately granted. But, at the same time, we think the occasion is one that ought to make the suggestion put out in these columns last year more acceptable than it then appeared to be. This suggestion was that a building suitably located should be erected especially for the department. We pointed out at the time that, not only did the importance of the department and the amount of the work it had to do, give it a claim upon the city for separate and suitable quarters, built with a view to supply its peculiar needs, but, also, that the rental paid for the inadequate offices on the corner of 4th avenue and 18th street would be more than sufficient to meet the interest on the bonds the city would have to issue to pay for such a building. This argument has greater potency than eve that it is proposed to increase the amount of rent paid i department's accommodations. Our suggestion did not the approval of the head of the department at the time it made. He was then very confident that the space at his o posal was sufficient for his needs. Experience has chang his opinion, on that point at least, as his application to th Sinking Fund Commission shows, and a little consideraton ought to win him over to the economic side of the question also. Outside of the department our suggestion was approved entirely by the architects and builders whose opinions were sought, and we are sure that the building trade generally would feel proud and gratified if the undoubted importance of their calling to the maintenance of the dignity of the city was recognized by the dedication to its immense interests of a handsome and suitable building adorning a central position.

LONDON takes the logical view of the influence our political situation should have on the stock market. A Democratic Presidential candidate pledged to the free coinage of silver at any ratio is more certain of defeat, owing to the defection of gold Democrats from the party ranks, than one canvassing upon an independent silver ticket, with the gold men divided up by their party allegiance. The sane and respectable elements of the Democratic party are entitled to much sympathy in the trial they are now undergoing, but they can take comfort in the thought that the coming campaign will not be one of Republican against Democrat, but one of gold against silver, with the chances largely in favor of gold. This view has doubtless actuated the speculative buying from London, which has been so remarkable a feature of this week's trading. The people on this side of the Atlantic, who ought to be the leaders in an advance, seem to be doing nothing to help prices, and all their talk prior to the St. Louis Convention of what would follow the adoption of an out and out gold plank was, apparently, simply to help make a good market for them to realize on. There is a good deal of nervousness in the Street as to what will follow the nomination by the Chicago Convention of a free silver Democrat to contest the Presidency next fall, but it will be wiser to wait and take advantage of actual results than to sell in the belief that the big break expected will come.

"WHAT is wanted is that measures necessary to insure the maintenance of the gold standard shall be taken resolutely in hand by those who are convinced of their necessity and prepared to press them resolutely forward." This is the condition the London *Economist* lays down, in commenting on the St. Louis platform, for a change of front on the part of Europe toward American securities. It probably states the case pretty accurately. There are those who resent the idea that we want European help in our enterprises, and, on the other hand, there are others who wish for it very much. The latter can learn from this statement what they have to do to secure the influx of capital they desire. Capital in London has turned to brewery stocks, which have been doing very well under the increased consumption of beer, always a sure indication of commercial prosperity in England, and it is also another sign of the disproportion of capital to investments that the great London and Burton brewing companies are paying only $3\frac{1}{2}$ per cent or less upon the market price of their share issues. The rise in value of these shares has been simply enormous; one, the most signal instance, has risen from 362 to 640, or to the price of some of our best banking shares. China has decided to establish a postal system, confined at first to the treaty-ports and the centres adjacent to them, under the direction of Sir Robert Hart; she will also make application for admission to the postal union. The material reasons for the desperate fight Spain is making to retain possession of Cuba are given in a recently published statement; summarized, they are, that she exports thither $25,000,000 of her goods, and receives $5,000,000 of goods thence; $250,000,000 of Cuban bonds indorsed by Spain are held in Spain or in France, besides the securities of many public and private enterprises throughout the island; the profits to the bankers and merchants of Spain who transact the Cuban business are very large. Consequently, Spain can spend much more than she has yet done to hold the island, and in the event of being successful, by funding the cost, still make the operation a profitable one. The French government is about to issue $13,000,000 of bonds in aid of the Exposition of 1900. The bonds will carry twenty Exposition admission tickets and the right to travel to Paris within thirty miles of that city at reduced rates; to holders of the bonds residing in Paris, the travelling privilege will be substituted by reduced rates of admission to the theatres and side shows on the Exposition grounds. The imports into France show a healthy condition of trade, the increase for May, amounting to about $5,000,000, being almost wholly in raw materials. The Berlin bourse is more depressed than ever, but the commerce of the German Empire continues active and flourishing. Anti-Semiticism has at length driven the annual international corn market away from Vienna; this year it will

Bicke[illegible]d at Budapesth. The prospects for the harvest are better Boss[illegible]ver in Hungary and as good as ever in Austria.

Br[illegible]

D[illegible]HE nervousness of the police force under a stricter discipline P[illegible] and the call to a higher sense of duty sometimes leads individual members of that body into the commission of grievous mistakes. We must, however, bear with them and remember that it takes time to create that mental sufficiency which enables a man, especially a man of the calibre of the average policeman, to look out for the roundsmen, sergeants and others appointed to see that he does his duty, and at the same time coolly deal with the emergencies which arise on his beat. Except for this consideration, the arrest of the plumber who was cutting a trench on Canal street on Sunday to cut off the water supply and prevent the flooding of a building, threatened by reason of the breaking of a stop-cock, was an outrage. The policeman, bent upon carrying out orders to enforce the Sabbath law, and doubtless with fear of report and trial at headquarters, followed by suspension and loss of pay in his mind, would listen to no explanation, but marched a respectable tradesman off to the station. When the case came before the Magistrate the plumber was discharged and a precedent was established for the guidance of the police in the future. It is very gratifying to learn, even at this expense, that the owner may call in a plumber on Sunday to prevent injury to his goods and building, but, as the accident which brought about this lesson is not of frequent occurrence, it is to be hoped that the police will not regard the case too literally and will recognize that there are other emergencies, amounting to works of necessity, which a tradesman may be called upon to meet while other folk are in church or availing themselves of the privileges conferred by the letter, though not intended by the spirit, of the Raines Law.

The Housesmiths and Bridgemen.

Delegate Lenaghan fired another gun at the Iron League from the vantage ground of the Central Labor Union's meeting-place, on Sunday last. He said all branches of labor included in the Housesmiths' and Bridgemen's Union would demand 31¼ cents an hour and an eight-hour day. This is the system of pay for iron-work in vogue in Chicago and they proposed to establish it in New York. He claimed that some New York iron contractors had adopted it. So far the demand has not been presented to the Iron League, who, however, anticipate some trouble, but will not accede to the demand if made. Its members speak of the Chicago system as preposterous and impossible of application in this city. The League has done its best to placate the men. After the strike of last winter it agreed with a committee of the men on a scale of wages, conditioned on an agreement that all disputes should be settled by arbitration. This condition was rejected. Notwithstanding the attitude of the Union, the League put into force the agreed scale of wages on June 1st last, and it is in force now. The circular announcing this fact reads as follows

The Executive Committee of the Iron League have adopted the following schedule of wages for outside men at work on buildings in the Metropolitan district, the wages in all cases are to be minimum rates for the different classes of workmen:

Men in charge of Boom Derricks	$3.00 per day.
Derrickmen, and good all-around Men	2.50 " "
Helpers on Derricks, Class A	2.25 " "
Helpers on Derricks, Class B	2.00 " "
Riveters	2.50 " "
Holders-on	2.25 " "
Heaters	2.00 " "
Finishers	2.50 " "
Finishers' Helpers, Class A	2.00 " "
Finishers' Helpers, Class B	1.75 " "

Men receiving higher wages than this scale specifies shall not be reduced, and those showing ability and attention to duty, will be suitably advanced as far as circumstances will permit.

Eight hours shall constitute the regular time of a day's work.

Overtime on week days shall be reckoned and paid for as one and one-half regular time, and on Sundays and legal holidays as double regular time.

Employers can employ night gangs at regular time wages.

At the termination of his employment an employee shall be entitled to a card from his employer stating the capacity in which such employee worked, the duration of his employment, and the wages paid him.

Employers will not discriminate against any man.

The Executive Committee being also a Board of Arbitration stands ready at any time to consider and adjust any complaints or grievances on the part of employers, or on the part of employees against their employers.

Park Avenue.

The Board of Aldermen, at its meeting on Tuesday, adopted the following report and resolution:

The Committee on Street Pavements, to whom was referred, on May 5th ult., so much of the report of the Railroad Committee on the matter of complaint of the Park Avenue Property Owners' Association, relating to the condition of the pavement on Park avenue, from 95th street to the Harlem River, beg leave to report that we have investigated the matter, conferred with Mr. Edward P. North, Water Purveyor, and conclude as follows: That, in view of the early completion of the railroad improvement to said Park avenue, and the fact that, when possible to do so, the Park Avenue Improvement Commission would under the conditions of its appointment and powers proceed to fill in the said avenue, and properly pave the street and place it in a presentable and satisfactory condition, that no action on the part of this Board is at this time necessary. We offer the following:

Resolved, That the Committee on Street Pavements be and the same is hereby discharged from further consideration of the subject referred to it, as mentioned in the foregoing report

Tunnel Communications.

The Committee on Bridges and Tunnels have reported favorably to the Board of Aldermen on the application of the New York and Brooklyn Railroad Company for permission to construct a tunnel between the cities of New York and Brooklyn, and to make the necessary openings in the streets. The Board ordered the report of the committee printed and its consideration postponed. The committee recommended that the application should only be granted on condition that any openings should be for temporary purposes only; that the stations of the railroad company and the approaches thereto should be located and built entirely within the building line and on private property of the railroad company; that the company should pay 2½ per cent. of its earnings annually to the city. The route proposed in the plans submitted with the application extends from Ann street and Park row, at which point the great north and south lines of surface travel meet, in front of the post office, and within close proximity to the City Hall. From thence it extends eastward on private property to be acquired by the railroad company, under Nassau, William, Gold, Cliff, Pearl, Water, Front and South streets, and a corner of Fulton Market, under Pier 23, and thence under the land under the East River to Brooklyn, with a terminus near the City Hall. The mode of construction requires the railroad company, beginning with the surface of the streets, to make its grades on its own property, without interfering with the traffic on any street, so that it goes under Nassau street, and each of the other streets named, at a gradually increasing depth until it is over 100 feet below the surface at Fulton Market and Pier 23. It will be 146 feet below the surface of the water and nearly 50 feet below the surface of the rock bottom. No street is used at all, except to be crossed below the surface, and all excavations are to be made on the company's property or at the bulkhead for the removal of the dirt excavations.

London newspapers report that on the 11th ultimo a proposition for the reorganization of the Hudson River Tunnel Company and the resumption of work was submitted to stockholders of the company in that city, and accepted by them. One-half of the money required for renewing operations is to be found in New York.

Building in Brooklyn.

Total estimated cost for June, 1895		1,292,012
Excess in favor of 1896		$46,461

The New East River Bridge.

The New East River Bridge Commission has received from their Engineer-in-Chief, L. L. Buck, plans which provide for the erection of a straight structure, extending from Havemeyer and South 6th streets, in Brooklyn, to Norfolk and Delancey streets in this city, 150 feet wide, with a safety margin on either side of 25 feet, making the total width of the land to be condemned for the erection of the structure 200 feet and 3 inches. A strip of land this width will have to be condemned from the river to Clinton street, if these plans are adopted. This will permit of the widening of Delancey street between these two points to 100 feet. Mr. Buck also reported that the borings in the river will be completed in about four weeks, and the work on the bridge towers begun then.

Of Interest to the Building Trades.

The recognized weights for seasoned red hickory and Spanish mahogany in the British lumber market are, 62.37 pounds per cubic foot for the former and 53,25 pounds per cubic foot for the latter.

Rubber machine belts can be laced as substantially and as well as leather ones, provided the work is done systematically. Metal clamps and other connections are common for splicing now, but the regular lace hide is the best for all-round work.

A new roofing seamer has recently been placed upon the market, the construction of which is such that only one machine is needed for wide-gauge—that is, the gauge made with the 1¼ and 1½-inch roofing tongs, and a similar machine for 1 x 1¼-inch or common gauge, The machine is worked by handles without foot lever.

The reading of the graduations is facilitated by a recently patented depth gauge the head of which is a solid piece of steel that can be conveniently held while measurements are being taken. It is milled to receive the rule or blade which slides in a slot in the back. The front of the head is beveled back to the width of the rule, so that reading is much easier than in the ordinary gauge. By a special device the rule is clamped upon both edges and held centrally and firmly in place.

Mr. William Hood, Chief Engineer of the Southern Pacific Railroad, in summarizing the results of transverse tests of 60 beams of Oregon pine, says: "Although Oregon pine beams of sundry depths have the same actual fibre strength regardless of depth of beam, they must be treated as if having very different fibre strength and stiffness, per depth of beam used, when stresses are computed by the ordinary formulas in use for computing beam stresses."

A San Francisco bricklayer has established a class in bricklaying for boys of 10 years of age and upward. Lessons are given every evening, and on Saturday, an hour is spent in drawing to scale what will be built the following week. This is a simple example in industrial training that might be easily followed, not only in the bricklaying trade, but also in every other division of the building business.

The use of copper in the exterior ornamentation of buildings is increasing rapidly. The effective corona surmounting the Surety Building in this city, admirably calls attention to the fine effects that can be produced with this metal supplemented by gilding. The new City Hall at San Francisco displays considerable ornamentation in this line, among other things a ball 17 feet in diameter surmounting a dome and forming the pedestal for a metal figure typifing Peace.

An English mason has hit upon a novel kind of ornamental window pane. Instead of using the various kinds of glass usually employed, he employs marble. The stone is cut into exceedingly thin slabs, a few inches across, and after being polished on both sides, is fixed to a piece of clear glass. Such thin pieces of stone transmit light, though they are not perfectly transparent, and any veinings or fossil markings upon them come out as a pattern. The cutting and polishing reduces the colors from bright to pale tints, and with the many fine-colored marbles in

this country, some beautiful effects might be produced by borrowing this idea for purposes hitherto monopolized by ground and colored glass.

To architects going abroad it may be of interest to learn that the Glasgow Institute of Architects will hold an exhibition of metal work in their rooms in October next, and that the annual meeting of the Amalgamated Society of German Architects and Civil Engineers will be held in Berlin on the 30th of next month. One of the excursions in connection with this meeting will be to the old castle of Marienbourg, whose archaeological virtues have recently been the subject of discussion.

For over a year negotiations have been carried on between Messrs. Otto Eidlitz, C. T. Wills and A. J. Robinson, a committee representing the employers associations, and a committee of the Board of Walking Delegates, in the hope of settling upon a plan for the arbitration of disputes between employers and employed in the building trades. A number of conferences have been held and at a recent one the representatives of the men presented a plan which they were asked to submit to the several trade associations; it is understood that they are taking the opinions of their principals upon it. None of the Masters' organizations have passed upon it as yet. The principals decline to state what the plan is. It is currently reported that it is based upon an arbitration committee of employers and employed in each trade, with a general committee, similarly composed, of all the trades, to which matters that the several trade committees cannot settle themselves can be referred. Mr. A. J. Robinson was asked to confirm this report, but he said he could say nothing more than that several conferences had been held and some progress made toward a plan for securing arbitration upon differences before strikes were resorted to.

The consent of the Department of Buildings, first verbally given, afterwards withdrawn by letter, has lately been renewed by the issue of permits for proceeding with the two buildings of Henry Corn, one at No. 424 Broome street, and one at No. 51 West 3d street. These buildings were affected by the "snap" act making the erection of non-fireproof buildings over 70 feet high illegal.

The third annual outing of the Building Trades' Club on June 25, was not a success as an "outing," owing to the prevalence of an easterly rainstorm, but as a function for the promotion of fellowship and good will, it was all that could be desired. The programme was carried out in its entirety. A party of 150 boarded the "Tolchester," and took the trip to Iona Island. They had an excellent dinner, good music and other agencies for insuring a sociable and happy time in spite of the unkindliness of the elements. But think what next year's outing will be, when the day is sure to be fine, if this year's was so good with the weather so bad.

The following has recently been issued by General Collis, the Commissioner of Public Works, for the information of property-owners, builders, flaggers and others: "Notice is hereby given that the practice of placing concrete or other friable curb on the streets of this city, is in contravention of Chapter VI, Article 7, section 105, Revised Ordinances, of 1880, which reads: 'All curb-stones . . . shall be of the best hard blue or gray granite.' And this Department will find it necessary to prosecute to the full penalty imposed by law persons setting or making such curbs, whether they have broken up or removed the curb-stones provided by the city or not.

"Further notice is given that this Department will in no case entertain claims for damages to concrete or other artificial sidewalks that are caused by repair or setting of hydrants, or by other work which the city does for the general good."

A WARNING.

The following letter from the Superintendent of the Department of Buildings needs no explanation. The practice of which it complains and whose end it is sought to bring about began with the delays experienced in getting plans through the Department early last year. Its continuation is defended in the trade on the ground that the plans are still often delayed in the Department beyond a reasonable time for their examination. However, owners, architects and builders have now notice of the law in the case, and of the intention of the Department to proceed to collect penalties in the event of its violation:

Department of Buildings, New York, June 30, 1896.

To the Editor of The Record and Guide.

Sir:—I deem it to the best interests of all who are interested in real estate in New York City, or in the construction of buildings, to call attention to the following provision of the Consolidation Act. Section 503 thereof, as amended, provides that "Before the erection, construction or alteration of any building or part of any building or any platform, staging or flooring, ... in the city of New York, is commenced, the owner or his agent or architect, shall submit to the Superintendent of Buildings a detailed statement in writing of the specifications, and a full and complete copy of the plans of such proposed work . . . and the erection, construction or alteration of said building, platform, staging or flooring, or any part thereof, shall not be commenced or proceeded with, until said statements and plan shall have been so filed, and approved by the Superintendent of Buildings." From the frequent violations of the above provision it would seem as if many people were utterly ignorant thereof, and of its great importance.

It is impossible to properly administer the duties with which the Department of Buildings is charged if such violations are continued, as no proper inspection of buildings in course of erection can be made until the plans therefor have been approved. The inspectors are charged with seeing not only that the buildings are constructed in accordance with the provisions of law, but also in accordance with the approved plans and specifications therefor. Consequently, proceeding with the construction of a building before the plans therefor are approved makes it utterly impossible for the inspector to ascertain whether the building is put up in accordance with the plans thereafter approved; as in the meantime if any departures are made from the approved plans it is possible to cover up many of them.

For that reason I desire to give notice that in the future a penalty of $250, provided for by the statute, will be exacted in all cases where construction is commenced before the approval of the plans, from all persons guilty of committing such violation, whether owners, supervising architects or builders. Moreover, as I am firmly resolved to stop the commission of these violations, in all cases where any portions of such buildings are constructed contrary to the plans thereafter approved, I shall institute whatever legal proceedings may be necessary to make such buildings entirely conform to the approved plans.

I deem it my duty, therefore, to give this public warning, which I hope will be sufficient to deter owners, architects, and builders, from committing any more violations of this nature. Certainly it is to their best interests so to do, for they will thereby save themselves considerable trouble and difficulty, and perhaps also a great deal of expense.

STEVENSON CONSTABLE, Supt. of Buildings.

The Greater New York Commission.

Messrs. De Witt, Dillon, Low, Green and Gilroy were on Saturday last appointed a committee, with the chairman, B.F. Tracy, and the secretary, G. M. Pinney, members ex-officio, to draft a charter for the consideration of the Greater New York Commission by next fall. A motion by Commissioner De Witt to practically instruct the committee to draft a charter for a borough or federal organization was lost. The Commission adjourned until Sept. 21 next. The Committee on Draft held an executive session at which sub-committees were appointed as follows: Messrs. Tracy, Dillon and De Witt to report on the bearing of the new charter on the county governments in the localities affected; Messrs. Low and Dutcher to investigate and report on the financial standing of the three cities and on their systems of education; Messrs. De Witt, Tracy and Pinney to act with Corporation Counsel Dean in making the rough draft of a charter; Mr. Dillon to inquire into the systems of municipal government in London, Paris, Berlin and Glasgow.

The Committee on Draft held a second meeting on Wednesday afternoon. In the course of the discussion a suggestion that the legislative body of the new city should consist of an upper and a lower chamber received favorable comment. Messrs. Tracy, Dillon, De Witt and Attorney-General Hancock were appointed a committee to examine into the question "Whether the municipal consolidation of territories comprised within Greater New York, as specified by the act, will require the revival of county governments in New York and Kings counties, and in particular whether it will be necessary to have a Board of Supervisors of said counties; and, further, as to what will be the effect of such revival, if any, upon the consolidated municipality." The committee adjourned subject to the call of the chairman.

Trade Notes.

Richey, Browne & Donald, the well-known firm of architectural ironworkers, had their works at Newtown Creek destroyed by fire on Tuesday night. They have since hired the Montauk Iron Works at Provost and Greene streets, Brooklyn, and are now prepared to go ahead with all their old contracts, and any new ones that they may obtain.

The Real Estate Market

A round million has been invested this week through private sales due to brokers. That is our reports indicate that amount, but it is reasonable to suppose that they reveal only the usual proportion of the actual business accomplished. The daily newspaper reports of sales that had gone on record during this and previous weeks are, of course, ignored. They have been unusually numerous since Monday and their publication as "news" can only be accounted for by the dearth of genuine real estate information and a desire to make a showing, even a false one, in the daily summaries. None of the transactions mentioned below has any particular significance. It is possible that the list might have been more extensive were it not that the annual celebration to-day of the national holiday caused the absence from the city yesterday and the day before of many of the active factors in the market, the temptation to get out of town until Monday or Tuesday proving unresistible to the average broker or dealer.

The following are the comparative tables for New York Conveyances, Mortgages and Projected Buildings for the corresponding weeks of 1895 and 1896:

In the auction rooms every Monday is, as a rule, a day heavily tinged with blue as far as sales and sellers are concerned, and on rare occasions only are we called upon to chronicle a successful offering of a voluntary character on the first day of the week. William M. Ryan, however, must be credited with one this week, as, by order of executor, he succeeded in securing a buyer at the Broadway Salesroom for the small dwelling and lot, No. 433 East 116th street.

On Tuesday five auctioneers crying their offerings to fair-sized audiences, gave the first half of the noon hour an appearance suggestive of spring activity. Peter F. Meyer sold in partition the fee and leasehold property, known as the Chelsea houses, Nos. 311 to 315 West 22d street. It comprises a frontage of 89.11 of which 30.6 is held under Ogden leases. The latter are not assignable, but it is claimed that they or similar leases have heretofore been assigned without objections from the land owners. A singular fact in connection with this sale is that the auctioneer's posters giving a full description and all particulars referred to it as in partition, while in the legal notice it was stated to be a foreclosure, and no mention was made of the ground leases. E. H. Ludlow & Co. disposed of the extensive manufacturing property, Nos. 516 to 528 West 35th street, by order of the executors of the late John Graham. Nos. 524 to 528 were the first offered, but no advance on an upset price of $55,000 being obtained, the property, in accordance with the terms of sale previously read, was presented as one parcel, with the result that a bidder secured it for $109,900. Three foreclosure sales also took place.

On the same day at the Real Estate Exchange, Richard V. Harnett & Co. offered unsuccessfully No. 125 Broome street, corner of Pitt street, and No. 49 Leroy street, both under the direction of executors. The first was bid in at $12,500, and the other was withdrawn without a bid being made for it.

Legal sales of city property were the uninteresting feature of the other days of the week at the Broadway Salesroom.

James L. Wells and Charles A. Berrian will conduct a big sale of North Side lots, on Tuesday, July 14 next, in the Real Estate Salesroom, No. 111 Broadway. On this occasion they will sell one hundred and twenty-four choice lots, immediately adjoining the 183d street station of the Harlem railroad, and located on Webster, Vanderbilt, Tiebout and Valentine avenues and 183d and 184th streets. The occasion will afford excellent opportunities for securing good business and residence sites. The property is sewered, watered, and lit by gas. Seventy per cent of purchase price can remain on mortgage. The 3d avenue trolley line runs by the property. Other particulars will be found in our advertising pages, and full details can be had of Merrill & Rogers, attorneys, No. 111 Broadway, or of the auctioneers, at No. 59 Liberty street.

BROOKLYN ANNOUNCEMENT.

Wm. Cole will sell in the Exchange, Nos. 189 and 191 Montague street, on Tuesday next, the 7th inst., the dwellings, No. 152 26th street, and No. 151 27th street, of which further particulars can be obtained in our advertising pages, or at the auctioneer's office at Nos. 7 and 8 Court square.

Gossip of the Week.

SOUTH OF 59TH STREET.

John Finck has sold for Dr. Francis A. McGuire, the three-story stone front dwelling with lot, 19.10x79, No. 631 Lexington avenue, between 53d and 54th streets, to ex-Police Captain Thomas Ryan.

The four-story brick tenement with lot, 25x93.11, No. 59 8th street (St. Mark's place), has been sold by Mrs. Margaret C. Conlan for $27,000.

Builder Joseph E. Cooney, of Brooklyn, has bought of John M. Baldwin, for immediate improvement, the lot 25x98.9, No. 454 West 40th street.

William P. Jones & Son have sold for Christian Sander the five-story brick store and tenement, with two-story frame building on rear, lot 24.6x100, No. 452 9th avenue, between 35th and 36th streets, to Robert H. Martin, of Orange, N. J., for $23,000.

Frederick Winant has sold the four-story stone front dwelling with lot, 12.6x100.5, No. 69 West 54th street, for something over $25,000.

The University Club purchased from William Rockefeller, previous to his departure for Europe on Wednesday, the plot, 25x200.10, on the north side of 54th street, 125 feet west of 5th avenue, running through to 55th street, for $130,000. The southerly lot adjoins the rear of the corner plot recently acquired by the Club, but only the easterly 15 feet will be utilized as part of the site of the new club house. On the northerly lot a ladies' annex will be erected. Mr. Rockefeller retains a 30-foot frontage on 54th street, with a full lot adjoining in the rear, and extending to 55th street. He purchased the entire plot from St. Luke's Hospital not long since, paying $235,800, and as will readily be seen, has realized a snug profit on the resale to the Club.

C. Wolinsky and James Shiels have sold for John Gormley the old four-story brick store and tenement, No. 232 Clinton street, northeast corner of Monroe street, with lot, 25x93.5, to Weil & Mayer, at $21,500 for improvement.

J. Arthur Fischer has sold conjointly with Hibson & Bowes, the five-story brick tenement, lot 25x about 80, No. 693 1st avenue, between 39th and 40th streets, for Dr. Valentine Cook, to the Misses Ketcham.

A trade has been closed between Peter Thomas, of Hempstead, L. I., and Joseph Goodman, by the terms of which the former will exchange the five-story tenement with lot, 25x109, No. 87 West 3d street, west of Thompson street, a Ludlow street tenement, with Stuyvesant leasehold, having 13 years to run, and two farms at Hempstead for Nos. 223 to 227 Stanton street, southeast corner of Pitt street, Nos. 104 and 106. The dimensions of the latter parcel are 50 feet on Stanton street x 100 feet on Pitt street x100x25x50x75. It comprises three four-story and two five-story brick tenements with stores, and one five-story rear tenement. The owner as an inducement for the making of the trade agrees to lease the entire property from Mr. Thomas for four years and nine months, at an annual rental of $9,000 from Aug. 1 on which date the deal will be consummated. About $175,000 is the aggregate consideration involved.

M. & L. Hess have sold for Amos R. Eno to Daniel E. Oppenheimer and Joseph Hamershlag, the plot 75x100, with old two-story buildings, Nos. 141 to 145 Wooster street, north of Prince, and the similar buildings with plot, 50x100, Nos. 149 and 151 Wooster street. A resale of one or both parcels to a builder for improvement is being considered. Mr. Eno acquired the properties just disposed of, at various times between November, 1880, and May, 1890, for a total of $81,300 or an average price for the five lots of $18,660. Recent Wooster street quotations would indicate that he has realized about $30,000 apiece for them.

A sale is reported of the five-story double tenement with stores, 25x88x100, No. 127 Forsyth street, by H. Rinaldo & Bro. for Mrs. Emma Kohnert to Gordon, Levy & Co.

NORTH OF 59TH STREET.

John F. Doyle & Sons have sold for Mrs. Anna M. Quicke, of England, the four-story stone front dwelling with lot, 20x100.5,

No. 59 West 68th street. The seller, as plaintiff, bought the house in at foreclosure sale in August of last year for $25,800.

Henry G. Leist has sold at about $13,000 the four-story brick tenement with lot, 20.6x102.2, No. 608 East 84th street.

The four story dwelling with lot, 18x100.5, No. 24 East 62d street, has been sold by Mrs. Adolph T. Scholle, who purchased it in May, 1891, for $38,000.

M. Bargebuhr & Son have sold for Mrs. Marian E. Moore the two new five-story brick flats, 25x83x99.11, Nos. 287 and 289 West 142d street, to Mrs. Elise Lotze.

J. Walsh and A Littery have sold for William F. Koerner to J. D. W. Blohm the five-story flat with store, lot 25x107, No. 2172 5th avenue, one door south of 133d street; and to Christian Wehderbrock the adjoining and same sized flat and lot No. 2170 5th avenue.

The same brokers have sold for M. C. Baum the three-story brick store and tenement, with lot 20x80, No. 2350 2d avenue, between 120th and 121st streets, to a Mrs. De Bussy for $10,750.

Terence Farley's Sons have sold to Arthur Dyett the four-story brick, dwelling, 20x60 and extension x 100.8, on the south side of 87th street, 100 feet east of Riverside Drive.

J. M. Horton has purchased two lots with old buildings on the south side of 124th street, between 4th and Lexington avenues, upon which he will erect a brick stable and lofts.

Charles H. Dahlhauser has bought of Jacob D. Butler, with a loan for improvement, three lots on the west side of St. Nicholas avenue, 25.2 north of 117th street, with an L 25x25 fronting on the latter.

Heilner & Wolf have bought of Cates & Gillman a plot, 50x100.11, on the south side of 116th street, 75 feet east of Lenox avenue.

Slawson & Hobbs have sold for William H. Erskine the four-story stone front dwelling, with lot, 21x102.2, No. 18 West 82d street to Thomas Lenane. The price reported is $42,500. The house was sold under foreclosure on Wednesday of last week and knocked down at $32,850 to Mr. Erskine, who, it is understood represented a second mortgagee or other secured creditor by lien or mortgage, of the defunct firm of Livingston & Forster. No. 14 a similar dwelling was knocked down on that day to the same buyer at $33,000.

LEASES.

J. Arthur Fischer has leased for P. Maresi the former hotel on the northwest corner of 6th avenue and 44th street for a term of ten years, at an average rental of $4,500, to a tenant who will fit up the ground floor as a saloon and restaurant.

NORTH SIDE.

J. Clarence Davies & Co. have sold for the Schnorer Club a plot 75x100, on the north side of 163d street, 60 feet west of Cauldwell avenue, for $9,000.

Brooker & Dunn have sold for Builder Frank P. Lockwood to separate buyers, four new and as yet unfinished two-story and basement frame houses on Burnside avenue, near 179th street.

Johnson & Son have sold for Robert P. Johnson, Jr., the two-story and basement brick dwelling, 18.9x40x100, No. 499 10th street, to Mrs. Elizabeth Shedlock for $6,500.

Corwith Bros. have sold a lot on the east side of Monitor street, 80 feet north of Nassau avenue, 20x100, for Cord Rugen to Martin Rourke, for $900; also the lot adjoining on the north, 20x100, for Jacob Brunkhorst to the same buyer at a like price.

Real Estate Notes.

Timothy F. Neville, lawyer, has been proposed for stock membership of the Real Estate Exchange.

Several mortgages for large amounts have been recorded this week, and in one or more instances the liberal loaners seem to have advanced sums that are very close to actual values.

Were a new argument needed in favor of the west side of an avenue, the Raines Liquor Tax law would furnish it. On the east side of 3d avenue, between 14th and 59th streets, ten saloonkeepers, half of whom were located in corner buildings, have been forced out of business by the new law, while only one on the west side, between the same streets, has found it necessary to put up his shutters and vacate.

"You will be sorry if you don't" is an attractive sentence that has recently been at the head of an advertisement soliciting the thrifty to invest any amount, from one dollar up, with a real estate company that claims to be able to pay 6 per cent on all deposits. That claim is a source of wonder to persons familiar with the present unproductive condition of some of the most valuable of the company's property.

The Morningside Baptist Church is desirous of securing a plot 100x100 west of Lenox avenue, between 115th and 120th streets, as a site for a much-needed church, and some time ago appointed a committee to secure it. Several plots have been considered by the committee, and while being considered have been sold to builders. Meanwhile, lot values are increasing in the neighborhood fancied by the congregation and unless its committee soon gives evidence of a more energetic and practical spirit, the new church will have to remain unbuilt, or a site at a much higher price than was expected will of necessity have to be secured.

There is one broker not a great distance from Broadway and 42d street, who must be not only pleased, but amazed at the amount of free advertising the dailies have favored him with this week. And it was all due to his having put through a trade between J. Healy & Co. and William H. Butler, involving the exchange of the factory, Nos. 211 and 213 West 20th street, subject to a mortgage for $62,750 (full value apparently), for the tenement No. 226½ West 61st street and two tenements in Brooklyn. The details of the transaction were revealed by our Corps, ance lists of last week. Nevertheless the 20th street sale reported as "news" in the "World" on Monday, and again on Wednesday, in the "Herald," "Journal," and "Mail and Express" on Tuesday, and in the "Times" and "Post" on Wednesday. We congratulate the fortunate broker to whom credit was given in every instance but one in the alleged news item.

The Chicago Underwriters' Association has voted to add 5 per cent on all premiums of insurance in that city on policies written on and after August 1. Their action is designed to offset the results of an ordinance passed in February by the City Council, imposing a tax of 2 per cent on the gross premiums of all fire insurance companies of outside States doing business in Chicago. A tax of 2 per cent on the annual premiums, which are estimated at about $5,000,000, would bring the city, if collected, $100,000. The extra charge to be made by the insurance men will amount to $250,000. It will be thus seen that the burden will be placed, and in an increased form, on the property owners. It is understood that the resolution of the Association will be annulled in the event of the city tax of 2 per cent being repealed.

Concerning Real Estate Agents and Brokers.

J. P. & E. J. Murray, of No. 2034 3d avenue, corner 112th st., have been 15 years in the real estate business at that address. During all that time they have conducted a very successful, conservative business, and they are now recognized experts, especially in uptown property. Before that they had been successfully employed in the construction of houses in various parts of the city. Both members of the firm are considered reliable experts and have furnished testimony in many important proceedings for damages or condemnation. J. P. Murray has appeared as expert for a great number of property owners, including Weil & Meyer, and the Consolidated Gas Co. E. J. Murray is one of the newly appointed School Inspectors.

James A. McCloskey, who is well and favorably known to property owners on the Central West Side, where he was engaged in business as a painter for many years, has joined the ranks of the realty brokers and agents, and opened an office at No. 263 West 34th street, close to 8th avenue, where he will transact a general real estate business. Mr. McCloskey's former business brought him in contact with many owners and builders, and gave him a good knowledge of realty and its value in the section in which his new office is located. Counsellor James C. Quinn, who is well known as an active and successful pleader, occupies the same office as Mr. McCloskey.

Francis Hillenbrand has recently opened a new office at No. 1223 Lexington avenue, northeast corner of 83d street, for the transaction of a general real estate business, making special features of the collection of rents and management of estates. Mr. Hillenbrand has large realty interests of his own and of numerous clients to look after and has had ten years' experience in the business with an office in Rivington street. It is therefore clear that he is reliable and experienced ,and when it is stated that Mr. Hillenbrand gives personal supervision to all business entrusted to him, owners will understand that excellent results will follow placing properties in his charge, because his facilities enable Mr. Hillenbrand to secure most satisfactory results for clients.

CONVEYANCES.

Wherever the letters Q. C., C. a. G. and B. & S. occur, preceded by the name of the grantee, they mean as follows:

1st—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed which all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed can be impeached, charged or encumbered.

3d—B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no express covenants, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it.

The street and avenue numbers given in these lists are, in all cases, taken from the Insurance maps when they are not mentioned in the Deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made of them by the Department of Public Works.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded. Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that is is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date. Whenever the rate is not given, read as 6 per cent.

Mortgages against 23d and 24th Ward properties will be found all together at the foot of this list.

Editor Record and Guide:

The lien filed by Messrs. B. Kreisher & Son on my building, northwest corner 91st street and West End avenue, is unjust, as the money was offered with a deduction for extra expense to me on account of the above firms material not being according to the contract. I have deposited the amount and intend to contest it.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for further particulars see the list of transfers under the corresponding date. Whenever the rate is not given, read as 6 per cent.

DYCKERHOFF
PORTLAND CEMENT

Is superior to any other Portland Cement made. It is very finely ground, always uniform and reliable, and of such extraordinary strength that it will permit the addition of 25 per cent more sand, etc., than any other well-known Portland Cement, and produce the most durable work. It is unalterable in volume and not liable to crack. The foundations of many of the most important buildings recently erected in this city were constructed of the Dyckerhoff Portland Cement, such as the Statue of Liberty, Brooklyn Soldiers' and Sailors' Memorial Arch, Washington Memorial Arch, Grant Monument, Riverside Park, Equitable Life Insurance, New York Life, New York Times, World, Puck, Judge, Metropolitan Telephone, Metropolitan Opera House, U. S. Army, U. S. Trust Co., Union Trust Co., Farmers' Loan and Trust Co., Postal Telegraph Co., Corn Exchange Bank, University Building, Syndicate Building, Lion Brewery, Delmonico's, Hoffman House, Hotels Imperial, Savoy, Waldorf, New Netherlands, Siegel, Cooper & Co.'s Stores.

BUILDING MATERIAL MARKET.

NEW YORK.

BRICK.—While there have been no changes in quoted prices during the past week, a slightly weaker undertone has developed, as there are reasons to believe that the combination has become somewhat tired of maintaining prices at their present basis, holding the accumulation that they do, and some of the trade have been inclined to anticipate a break in values shortly. Furthermore, supplies have been coming forward with slightly more freedom latterly, and as there has been no improvement to trade, there has been a slight further increase to the supplies that have been carried previously. Values, however, have shown no change, ranging from $4 to $5, according to quality, although in instances where

there has been a pressure to sell, quoted rates have been shaded 12½c. per thousand. Specials have sold as received at steady prices, bringing $5.25. No changes have been apparent in the market for pale brick. Good have sold fairly, and prices have ruled steady at $2.00, but the inferior grades have been taken up slowly, but prices have shown no changes, closing at $1.50@1.75. A moderate amount of Jersey bricks have been coming to this market and the ordinary grades have sold at lower prices, bringing $3.50@4.00. The better grades, however, have sold fairly and prices have held steady at $4.25@4.50.

CEMENT.—The market was absolutely without change or new features of an interesting nature. There was no activity to the demand; still, a moderate amount of stock appeared to be moving, supplies having been taken up as received, and the general tone has continued steady with prices quoted as previously.

GLASS.—Nothing of special interest has transpired in the local market for window glass. The amount of business transacted has been very moderate, as buyers have limited their purchases to their actual wants, but prices have ruled steady. Advices received from Pittsburg stated that manufacturers have announced their intention of asking their workmen for a reduction of at least the amount of advance they conceded last fall, but we understand that the Window Glass Workers' Association, which holds its meeting on July 6, will be decidedly opposed to so doing. For plate glass there was a fair jobbing demand at steady values.

LATH.—A fairly steady tone has appeared to dominate the market. A moderate amount of stock has been received, and, while it has not moved briskly, sellers have not found it necessary to make concessions to do business, the sales made having been at the same prices as ruled last week—$1.70@1.75. At the close, however, dealers appeared to have sufficient supplies on hand for all requirements, and sellers were experiencing rather more difficulty in obtaining quotations; still, there was no disposition shown on their part make concessions to do business, and the tone was called steady.

LIME.—No changes of a radical nature have been apparent. Only a moderate amount of business has been transacted, but as arrivals have been small and supplies in sellers' hands have been reduced considerably latterly, there has been no pressure to sell and prices have held steady at 65 and 70c. for common Eastern, and 75@80c. for finishing do. The market for State lime has been without changes. Offerings have been practically nothing, and prices quoted have been more or less nominal.

LUMBER.—There is nothing encouraging to note in the general situation of the market. There has been a total absence of snap to business, transactions having been limited to absolute wants, and prices in most instances have been unsatisfactory from sellers' point of view. The depression in financial circles, over the growing agitation of silver at the South and West, and the now almost general belief that at the convention to be held at Chicago during the coming week a silver platform will be adopted, has had a decided unfavorable effect upon trade, business having been at a minimum, and merchants generally are giving more time to discussing the probable outcome of the present monetary situation than to business, simply because they cannot find the business to transact.

For Eastern spruce there has been a tame and uninteresting market. Offerings have been very limited, as the number of cargoes on the way to this market have been small; shipments from the provinces being small, as the continued demand from England for deals keeps considerable lumber moving in that direction, and from Maine the shipments are also small, as mills are cutting slowly. Demand, however, has been very moderate and prices hold only fairly steady. No changes were apparent in the market for West Virginia spruce. A limited amount was transacted in carload lots at steady values.

There have been no changes to note in the market for pines. Both yellow and white pines have moved slowly and there has been an absence of tone to prices. North Carolina pine has received some attention and values have shown some steadiness. Hemlock has had only a very moderate call, but prices have been maintained.

There have been no changes to note in the general situation of the market for hardwoods. Demand from house-finishers and furniture manufacturers have been very limited, but as stocks have not been particularly large, there has been no particular pressure to sell, and prices have held about steady.

"The Northwestern Lumberman" in speaking of the export trade in white pine, says:

"A notable feature of this season's white pine trade is the reaching northwestward for lumber for foreign shipment. Lately the Kirby-Carpenter Company sold 500,000 feet of 12-inch boards to go to Brazil, South America. Last week a Port au Prince dealer was in this city looking for the same kind of stock to go to Hayti, and a New York dealer was also here for lumber to go to South Africa. It looks as if Eastern dealers were either not fully stocked up for the lumber required for the foreign trade, or else they are holding it at prices that the shippers are unwilling to pay. It is another instance of the tendency of buyers to get as near the stump as possible for the purpose of making selections and buying at prices as advantageous as possible. It is the same motive that has driven Eastern buyers past Saginaw and lower Michigan into Wisconsin and the Lake Superior region for lumber. Furthermore, it is an evidence that while domestic competition with white pine from other kinds of lumber is yearly becoming more perplexing to producers, there is a growing foreign demand to offset such competition. But the foreign requirement takes the widest and best lumber, and thus reduces the 'sweetening' which is necessary to make the coarser more palatable in the domestic market."

NAILS.—At the meeting of the Association, held in Chicago, it was decided to continue present prices and guarantee July purchases against a decline in August. Owing to the fact that outside manufacturers, principally tack manufacturers, are making 3d. fine nails, prices are ruling rather low, and in some instances moderate lots have been obtained from store at $2.65@2.70. We quote at$2.30@2.40 per keg for car lots at mill, $2.55 per keg for small parcels from dock, and $2.57 from store. Wire, $2.70 for car lots from dock, and $2.80 from store.

PAINTS, OILS, ETC.—No changes of a radical nature have occurred in the general situation of the market. The amount of business transacted for immediate delivery has been very limited, but for forward deliveries, particularly during the latter part of the year, a moderate number of transactions have been made, and prices have ruled steady. White lead has moved rather slowly, but no changes have been made in quotations. Zincs have received a fair amount of attention, and have moved moderately at steady prices. French zincs have been quiet, but steady. The demand for litharge has shown something of a shrinkage, but no changes have been apparent in quoted values. The association figures on lead last announced are as follows, subject to change without notice. Pure white lead, dry or in oil, red lead, and litharge in kegs, in lots of 500 lbs. and over, 5¼c.; red lead and litharge in barrels and half barrels, ¼c. per lb. less than the price in kegs; white lead (cases), 1c. per lb. over price in kegs; white lead in 25-lb. tin pails (packed in 100-lb. or 200-lb. cases), 1½c. per lb. over price in kegs; white lead, assorted in 1-lb., 2-lb., 3-lb. and 5-lb., cans (packed in 100-lb. cases), 1½c. per lb. over price in kegs. Terms: On lots of 500 lbs. and over, 60 days, or 2 per cent. discount for cash if paid within 15 days from date of invoice f. o. b. at New York. Special prices for dry white lead in barrels. Quantities: To make either of above assorted quantities and assortment of packages either or all of the above articles may be counted. The above prices and terms supersede all previous prices and terms offered by this company. The feature of the market for linseed oil is the prospects of a consolidation of the entire interest of the country for the purpose of controlling prices. A meeting was held at Niagara during the latter part of last week. but nothing positive was accomplished. The proposed consolidation, however, is still pending, and the outcome is watched for with considerable interest. In the meantime crushers show no anxiety to make sales at these prices; in fact, we know that large orders for forward deliveries at the prices now ruling have been declined. We quote at 36@37c. for Western, 37@39c. for City from domestic seed, and 52c. from Calcutta seed. There has been a considerable falling off in the demand for spirits turpentine. Consumers were entirely out of the market during the latter part of the week, taking account of stock, and the varnish makers and canners appear to be well supplied for the present. Supplies in first hands have not been large, but Southern advices have been a trifle easier and prices have weakened slightly in sympathy to 25¼c. for regulars, and 26c. for machines. We quote at 25¼@26¾c. per gallon, according to time and place of delivery, quality, style of package, etc.

TAR AND PITCH.—No changes have been apparent in the market for tar. Demand has been limited to a few small jobbing orders, but there has been no supplies pressing for sale, and prices have ruled steady. The call for pitch has been very limited, but prices have been unchanged and steady. We quote tar at $1.65@1.85 in pine or Wilmington barrels, $2.40@2.50 in pork barrels, and $3.25 in oil barrels. Pitch, $1.85@1.90.

THE NEW INDEX.

ALL business, whether speculative or actual, whether in commerce or finance, is quiet. Notwithstanding a mind prepared for anything, the East has been amazed at the doings in Chicago, and more than ever is the sympathy of the community extended to thinking Democrats who are making such a determined, though apparently hopeless, fight to stem the tide of political and financial delusion that has immersed their party. Naturally the events of the week in Chicago have had a deterrent influence on business, but they have not seriously affected prices. In the Stock Market this is the more singular, because the London buying, which was a conspicuous feature last week, has been absent this. The strength of prices with the withdrawal of this support and in the unfortunate excitement of the times should be an indication of higher figures when the Chicago Convention has finally adjourned and the people have time to estimate its work at its true value. The voice of Populism, as heard at Chicago, is keyed up to too high a pitch to hold out until November, and before that time sober thought will have changed the views of many who are now hysterically demanding the free coinage of silver, the income tax and the other cries raised to delude the ignorant that in them may be found panaceas for all material misfortunes. In like wise when the business community sum up the probabilities for the American people accepting the insane and ignorant theories of Tillman, Bryan and Debs they will take a more cheerful view of the situation.

LI HUNG CHANG'S progress through Europe raises hopes at every step that he will place orders for ships and guns, rails, locomotives and cars, as well as loans to pay for them, on behalf of the Chinese Government. It is amusing to note the lavish courtesies bestowed on the great man wherever he goes and to read the inferences drawn by trade journals. So far he has not bestowed any commercial favors, probably because his powers do not extend beyond the gathering of information for the use of the government at home. Still, it is always good to have a friend at court; hence the attention bestowed on the Viceroy. Not much is being done in the European financial world. London received the Chilian loan quite coolly, not only because it was not underwritten by the bankers who brought it out, but also because of the impression prevailing there that the agreement of Chili and Argentina to submit their boundary dispute to arbitration is only a pretext on both sides to get time to raise money to carry on hostilities with. The effect of increased bounties on sugar production in Germany and Austria is to lower the price to the British consumer, another instance of the folly of legislators tampering with economic laws. Spain's budget makes a good showing, if we forget the pecuniary responsibilities that are of daily occurrence in Cuba. Copper has a very good statistical position, and copper shares are in favor, but they have advanced substantially this year, and previous events have shown the danger of relying too much upon the figures of supply and demand, the former increasing and the latter decreasing at inconvenient seasons. Although the new bourse law had not left the Cabinet of the German Emperor, the tax on bourse transactions in May and June fell off sharply, compared with the returns for the same month last year. In Austria the Anti-Semitic movement is embittering the feeling toward Hungary, which has refused to join in the persecution of the Jews. In some Hungarian districts, in the Banat especially, the heat has been very great, and it is feared that wheat may not attain its full size; but everywhere elsewheat promises a splendid harvest. Rye is good everywhere, and most excellent in Galicia. Oats and barley are also in very good condition, the only fear being that if the heat continues as intense as it has been for the last six weeks the grains will remain small. Corn needs rain more than all the other kinds of grain.

The Silver Craze.

IT must not be supposed that the opinion of the country on the Silver question is firmly divided. A large number of people, no doubt, are convinced that the gold standard can neither be threatened nor abolished without disastrous economic consequences and national disgrace. On the other hand, unquestionably there are a great many people who are firmly satisfied, that, in part at least, the fall in the price of commodities that has occurred in recent years is due to an inadequate supply of money and the consequent appreciation in the value of gold. The value of money, they reason, is affected, as is the value of any other commodity, by supply and demand, and as the supply of money has not kept pace with the demand for it (an unproved assertion), people have had to pay more to obtain it; that is, they have had to lower the price of their commodities.

But the greater part of the people are really on neither side. Their convictions are confused and uncertain, and merely tend this way or that, influenced by any stray idea imperfectly understood, received in the course of newspaper reading or from political talk.

It is only fair to say that theoretically "Silver" has something of a "case"—that is, bimetallists have some contentions that deserve respectful and careful consideration from intelligent men. Those contentions may or may not have the force which bimetallists attribute to them. The monetary problem involves many complex phenomena, about which it is easier to be dogmatic than reasonably sure. But at the present moment it is in the highest degree imprudent to endeavor to force bimetallism out of the field of theory into the field of everyday practice.

As to the 16 to 1 programme, as set forth in Chicago, it is pure revolution, confiscation, lunacy and chaos. No sane man can sympathize with it. It is a mixture of mob violence and mad-dog politics. Carried into operation it would produce commercial wreck of the direst character, in which no one would suffer more than the class the silver movement is intended to benefit.

The Chicago platform makes the approaching campaign, not a political contest, but a struggle between the friends of commercial honesty and stability, and the revolutionary crowd, in part misguided and in part downright dishonest. We have no doubt of the result of the fight. The people of this country have too much at stake to go astray. In a crisis of this sort it is plainly the duty of every man to put aside every consideration of "politics" and employ his influence and his vote for the maintenance of his country's good name and the common welfare. No doubt, the duty of the hour calls for greater sacrifices from Democrats than from Republicans, because the former to be patriotic must co-operate with their opponents, and thus substantially give their assent to doctrines and practices which they have been combating for years. Their duty, however, in the case is clear.

MONEY continues available for operations in New York City realty and, in spite of some talk to the contrary, there is a good deal of four per cent. money among it, although the latter is to be obtained, as has always been the case, only upon the choicest security. Brokers and negotiators of mortgage loans say that there is a renewal of the tendency on the part of lenders to insist upon the gold clause. This statement is supported to some extent by our mortgage records, though these do not indicate the least scare on the subject of silver. The proportion of gold mortgages is not more than is to be expected from the known and extreme conservatism of capital. In the month of June something over ten per cent. of mortgages on Manhattan Island realty contained the gold clause, and the proportion is being maintained this month. Dipping haphazard into our tables for the early part of the year in search of comparisons, we find the percentage less. In the second week in January 19 out of 266 were gold mortgages, and in the third week of March, 14 out of 249. Naturally, the several agitations of the silver issue causes private lenders to bethink themselves of the gold clause and, while they have no belief that they will ever have to fall back upon it, they insist upon it as a pure matter of precaution which costs them nothing. This was seen in the frequency of the gold mortgages during the excited discussion that preceded the repeal of the purchasing clause of the Sherman Act in 1893. Some of the great lending corporations made the gold clause a condition of their loans at that time and have maintained it ever since, but they are few, the majority, including all but one or two of the savings banks, have never required this, but the few that do make enough loans to keep the record sprinkled with gold mortgages. However, there is as little reason for rejecting the gold clause as for insisting upon it. A mortgage is generally made for such a short time

that there cannot be any danger, under any conceivable circumstances, of a change in the value of our currency prior to its maturity, and the maker will find it no bar to transfer of title, according to the rulings of the courts thus far. Would-be buyers do refuse to make contracts on learning that the mortgage on a property in negotiation is a gold one, but this is no more than any other of the many objections that rise up to break up sales and cause heart-break to brokers. This whole matter of the gold clause is in the main one merely of the insistence of every condition to his advantage, however shadowy or remote, of the party who is in the position to dictate terms and not by any means an evidence of his fear of what the future has in store.

A CIRCULAR issued by order of the Executive Committee and written by the Secretary, Wm. H. Sayward, of the National Association of Builders, in advance of the tenth annual convention of the association, which is to be held at Buffalo, on September 15th next, suggests as a proper subject for discussion on that occasion the following: Are organizations of builders, either local or national, desirable? If so, what are the functions of such bodies, and should the value of organization be measured by or dependent upon immediate specific results only? These questions are eminently proper for discussion at the convention, but it is a pity that a wider audience, and one more in need of education on the value of organization could not be secured. The national conventions are made up of men who, by their very presence there, prove that they appreciate the benefits that arise from a union of interests in the building trades. The people to be reached are those whom the circular refers to as having so little knowledge of the benefits of organization that the subject fails to excite their interest, unless some pressing need or emergency confronts them. These, it must be admitted, are the great outside crowd, while the convention will contain the small band of apostles already convinced. The latter, however, may receive inspiration from the discussion which will enable them to carry on an active propaganda among the unenlightened and so, in time, produce good results. The work of making the members of the building trades see their own interests is such a difficult one and the legitimate results of organization so hard to attain, that were the organizations judged by "immediate specific results only," the outcome would be very discouraging. On this part of the question it is to be hoped the convention will take the optimistic view, otherwise the national and affiliated associations might as well give up. It must be remembered that pioneers in good causes always appeared in small disinterested bands, and by dint of persistent prodding and undauntable spirit carried the world their way. They held the virtue of their position always in sight and not the chances of success, and so were never cast down by the temporary mishaps that befel them from time to time. The purpose of the National Association "to educate individuals to a knowledge of the protective power that lies n organization" is too good and important a one to fail.

No Plans From Manhattan.

When the Rapid Transit Railroad Commission met on Thursday last, primarily to receive the formal proposition of the Manhattan Elevated Railroad Company which was promised at their last meeting, it waited some time, but no proposition came. Counsel for the Railroad Company was called up on the telephone and stated by that medium that he did not know the Commission expected its plans that day. The Commission in executive session decided to ask the opinion of the Corporation Counsel concerning their powers to proceed with the plan for which the approval of the Supreme Court was obtained in 1894.

The Real Estate Board of Brokers.

The Real Estate Board of Brokers will hold their regular weekly calls right through the summer as heretofore. The attendance during the past hot spell was all that could be desired,a very large number being present at each call. A meeting of the Admissions Committee will be held on the 20th inst. to consider and pass upon a large number of applications. Applications from Messrs. W. D. Rusher, J. Hamilton Hunt, and Wm. E. Haws, proposed by Frank R. Houghton, and one from John R. Foley, proposed by P. S. Treacy, are already in the committee's hands.

New Flats Nearing Completion.

August Jacob, of No. 260 East 78th street, the well-known builder and roofer, has about completed a block of nine five-story flats on the southeast corner of 2d avenue and 91st street, four of which have already been sold. Mr. Jacob is also putting the finishing touches to a block of seven attractive flats on the northwest corner of 2d avenue and 67th street. Four on the avenue are each 25x64x80, except the corner, which is 25.5x76x80, all contain stores and are arranged for two families per floor, four rooms and bath to a suite, The street houses are also arranged for two families per floor in suites of six rooms and bath. No. 231 of the 67th street row has been sold to Mrs. Lepp.

The Assessed Valuation.

The Tax Department has delivered the revised tax books to the Board of Aldermen for confirmation and have given out the following statement by wards of the relative assessed valuation of the real and personal estate in the City and County of New York for 1895 and 1896:

Total assessed valuation for 1895	2,016,947,662
Increase in 1896	$89,537,243
Total increase in assessed valuation for 1896	94,274,109
Total decrease in assessed valuation for 1896	4,736,866
Net increase for 1896	$89,537,243

The large increase of $85,480,488 in the valuation of real estate is partly explained by the additions to the 24th Ward, made by the act of 1895, partly by the improvements that have been made in the city, and undoubtedly, also, partly by a screwing up of valuations to meet the increased expenditures the city is forced to undertake, and, of course, to lay the burdens more equitably upon the property-owners. President Barker stated recently, that the greatest proportionate increases had been laid on the property on Broadway and in its vicinity between 34th street and 46th street, because of the uptown business movement, and, he added, "the least kicking has come from that quarter." To assist the making of accurate comparisons and generally locating the growth of value as expressed by the assessed valuations, the boundaries of the sections referred to are given below:

Section 3. North side of 14th street and south side of 40th street, and the Hudson and East Rivers.

Section 4. West side of 6th avenue to Hudson River, between north side of 40th street and south side of 96th street.

Section 5. East side of 6th avenue to East River, between north side of 40th street and south side of 96th street.

Section 6. South side of 96th street, east side of Lenox avenue, East River and Harlem River.

Section 7. South side of 96th street, west side of Lenox avenue, the Harlem River, 155th street and the Hudson River.

The assessment rolls will remain open to public inspection in the office of the Clerk of the Board of Aldermen until July 21st.

Buildings in Brooklyn.

As usual, Mr. Wesley C. Bush, Commissioner, Brooklyn Department of Buildings, promptly issued his report of the operations of his department for the half year ended June 30 last. The record is not a satisfactory one, as an evidence of the activity of the building trades in Brooklyn this year. It shows 1,826 permits issued, against 1,899, or 73 less than in the first half of 1895, and representing a money difference against the first half of this year of $225,753. The number of alterations was greater, however, being 1,503, against 1,220, and the money difference $77,520, thus reducing the comparative total loss on all permits to $148,233.

The following statement shows the number of buildings for which permits were issued, their kind, and estimated cost:

	Brick buildings.		Frame buildings.		Total.	
Months.	Buildings.	Cost.	Buildings.	Cost.	Buildings.	Cost.
January	60	$238,745	92	$200,568	152	$439,313
February	142	760,650	126	306,542	268	1,067,192

Why not the Private Roof Garden?

It is a delicate problem that the speculative builder has before him. On the one hand, novelty he must have, for novelties arrest the attention of the buyer and often procure a sale where mere excellence of workmanship on the stereotyped pattern would fail to interest. On the other hand he must venture upon novelties with due care, with hesitating moderation, for a mistaken attempt at novelty, a new device that does not meet with approval, means an unsalable house and severe money loss.

So that we find new inventions in house building work their way into common use slowly and are as slowly displaced. Thus the "high stoop" began with the modest flight of five or six steps, such as we see in front of the two and three-story houses of 60 years ago; while, now that the established type of eleven or twelve steps is fairly entrenched, it seems almost impossible that it should be displaced by the more beautiful and more useful type called "American basement." In just the same way a generation ago men tried building a big steamship, quite as long, and much broader and deeper, than any that are built now.

It was the famed "Great Eastern," as much talked about and wondered at then as would now be a practicable flying machine, but commercially it was a total failure. We build ships now as long, and they are highly successful commercially, but we had to solve the problem gradually, little things and one at a time.

And it is in order to avoid a "Great Eastern" failure that builders go slowly in adopting radical changes of plan.

Besides the danger of doing something really undesirable there is the triple danger of doing what people are unaccustomed to. Most of us yet live in grooves, although many not from preference; yet, there are still millions who have no conception of the divine joy of doing as they please, who still find their highest delight in doing as they are told to do by those whom they consider their superiors.

In spite of all of this new ideas do force their way to the front, and it is to call attention to one new idea, that seems adaptable to private housebuilding, that so much has been said in introduction—to break it gently, as it were.

Why is not the roof garden a thing to be desired in private houses?

With six roof gardens upon theatres now open and commanding nine-tenths of the theatre business; with the easily observed preponderance of stay-in-town New Yorkers in the audience, it seems at least possible that a roof garden on a private house might recommend it to some people.

For a roof garden of the theatre kind, on top of the house, the first thought is how to get there. For a very large and costly house an elevator would be a matter of course, but not for most houses even though large and costly enough as houses go; and, as for walking up three or four flights of stairs after dinner, many would rather go without the coolness of the roof rather than have it at such a price; yet withal there are billiard-rooms almost on housetops, to which people do manage to climb after dinner.

This billiard-room association leads to another thought. Instead of making the roof garden on the very topmost roof, why not devote half of the upper story, or a third of it, or even a smaller part to a roofless room, where upon a suitable floor, palms and ferns and such easily kept plants might stand about in pots and tubs? The front treated as an open "loggia" crowning the edifice would be an effective feature; the rooms in the rear might include a billiard-room adjoining the roof garden, and giving access to it, with servants' rooms in addition; or the servants' rooms might be in the basement, an arrangement which has many advantages, in the more civilized forms of modern life. Even a small balcony worked into the front of the topmost story would afford a place for greenery, and a pleasant retreat, and this has actually been built in two clever brick houses on the south side of 78th street, just west of Central Park. In these the roof is built with a heavy projection in front, four or five feet, of mediaeval suggestion in appearance, but of plain utility. Aesthetically these roofs are admirable and justified to the judgment, as heavy cornices usually are not justified, by the open story beneath that unmistakably asks for such protection.

But there is another way of making a roof garden, which far surpasses the housetop method. This is to make it on the roof of an extension opening off of the principal story, naturally of course, in the rear, although, under unusual circumstances, a good architect could arrange one even better in front. Usually, however, the rear would be the proper place, and the "American basement" type of house is better suited to such an addition than the "high stoop." The chief lack of such basement-entrance houses is a lack of room for the kitchen, laundry and offices generally in the rear part of the basement.

To meet this want an extension in the rear of the basement would be the natural resource. It is essential though to the perfection of the basement type of house that it should not be carried above the second tier. Carried up on one side, in the usual butler's-pantry fashion, it destroys the symmetry and impressiveness of which even a small basement house is capable upon its "belle etage" as the French say—its beautiful story.

But if on the other hand this extension is carried up across the whole width of the house, or at least in the middle, or in any way which makes an open, airy and symmetrical treatment possible, it may be made to add to the beauty of this "beautiful story." Carried out in the rear, perhaps 15 feet, across the whole width, or enough to give a spacious central archway of entrance from the dining-room above, the roof of such an extension, surrounded by an appropriate balustrade, with columns or stanchions at the corners fit to extend an awning over the whole during the heat of the day, and adorned with palms and evergreen house plants—such a roof garden into which we might step with our after-dinner cigarette or cigar, or in which, if the fancy took us, we might even dine, would be a new revelation to New Yorkers of the possibilities of summer life in the city.

The Floods in West 23d Street.

To prevent the recurrence of floods in the neighborhood of West 23d street, west of 9th avenue, Mr. Horace Loomis, engineer in charge of sewers, will recommend that a new outlet to the river be made at 26th street. At present there is no outlet between 30th street and 23d street, a distance of about 1,800 feet, while it is the opinion of the engineer that these outlets should be made every thousand feet. This cannot always be done, but where the Dock Department makes new piers in suitable places that opportunity is taken for carrying the sewer outlet out to the end of the pier. Such an outlet was completed at West 23d street last year, and but for this the floods of this week would have been much worse than they were. Mr. Loomis thinks, however, the plan of constructing a new outlet at 26th street will provide effectual relief.

Rear Tenements.

The Board of Health yesterday applied to Judge Lawrence in Special Term, for orders of condemnation and the appointment of commissioners of appraisal against the owners of the following rear tenements: No. 21 West st.; No. 302 Baxter st.; Nos. 546 to 554 and Nos. 308 to 316 Mott street. The application was opposed on several grounds, the main one questioning the constitutionality of Chapter 567 of the Laws of 1895, whose passage was procured by the Tenement House Commission.

Asphalt on 5th Avenue.

The Board of Estimate has approved the recommendation of the Department of Public Works that 5th avenue be paved with asphalt, from 43d street to 59th street.

A Complete Index.

In answer to numerous requests from our subscribers, we have determined to issue a complete Index to

1. New York City Conveyances.
2. New York City Leases.
3. New York City Mortgages.
4. New York City Projected Buildings.

Thus giving our readers a complete reference to all real estate transactions. The charge for this Index will be $2.00 a year, $1.00 per semi-annual volume. Readers who desire these Indexes, either supplied direct to them or inserted with their bound volume, will please send in their orders at once (with money order), to the office of publication, 14 and 16 Vesey street, New York City.

Personals.

Thomas S. Walker, of Hall J. How & Co., left last week on his annual vacation, and will spend the time until Sept. 1 where New York lot prices are never quoted.

Edward M. Wilkins, of E. H. Ludlow & Co., is off on a trip through the northerly section of the State, that will end in a week or ten days.

Frederick Winant, of Douglas Robinson & Co., has gone to Mystic, Conn., on an outing that will be brought to a conclusion on Aug. 1.

L. M. Smith, of Stabler & Smith, left town a few days ago, on a vacation, to be spent at Savin Rock, near New Haven, Conn. His associate, Walter Stabler, will leave on the first of next month for Newtown, Bucks County, Pa.

Emanuel Hellner and his partner, M. J. Wolf, are both located at the West End Hotel, Long Branch. Early in August, Mr. Wolf will go as usual to the Thousand Islands for a four-weeks' stay.

L. Hess has been enjoying life with his family in the Catskills since the first of the month, and on the 15th inst. will indulge in a change of scene to the White Mountains, where he will remain until his return to the city on Aug. 1. M. Hess will then depart on a four-weeks' vacation.

Jere. C. Lyons is very partial to Avon-by-the-Sea, N. J., where he occupies a cottage with his family.

H. De Selding is residing at Larchmont for the summer, but manages to get to the city nearly every day.

George Nicholas is about to leave with his family for Saratoga Springs, and as soon as satisfactorily settled there will arrange to be in town during the season from Monday to Friday of each week.

S. Goldsticker, of L. J. Phillips & Co., is expected to return the first of the week from Saratoga Springs, which place he departed for on July 1.

Frederick Moeller has located for the summer at the West End Hotel, Long Branch.

The Building Trades

MERCANTILE.

Avenue A, between 59th and 60th streets, plot on rear extending to East River; New York Steam Company, No. 173 Broadway, owners; Lewis K. Davis, Johnston Building, is drawing plans for a two-story building of skeleton construction, to have a steam plant of 20,000 horse-power; also, a complete electric light plant, and coal hoppers of 3,000 tons capacity.

Murray street, No. 38, six-story store and loft building; size, 25x75; H. C. Tinker, owner; Robert Maynicke, No. 727 Broadway, architect. The front will be of light colored brick, terra cotta and iron; one electric elevator will be called for.

FLATS AND TENEMENTS.

Fifty-ninth street, south side, 175 feet east of Madison avenue, 25x100; twelve-story skeleton contruction store and apartment house, to cost about $100,000; W. C. Andrews, No. 173 Broadway, owner; Lewis K. Davis, Johnston Building, architect. Specifications call for stone, brick and terra cotta front, steam heating and electric lighting.

Brook avenue, east side, north of 164th street, two four-story brick flats; size, 25x105 each; cost, $20,000 each; Otto Von Luck and Frederick Brodt, No. 2351 Bathgate avenue, owners; W. C. Dickerson, 149th street and 3d avenue, architect.

Of Interest to the Building Trades.

J. J. Barry, Secretary of the National Association of Commissioners and Inspectors of Buildings, advocates the giving of power to an inspector of buildings to stop work, subject to an appeal, say, for twenty-four hours, whenever he catches a builder red-handed in the act of violating the laws. Not until such power is vested in the inspector, he thinks, will building laws be of the effect they should be.

The Associated Manufacturers have finally decided to continue the present prices of both cut and wire nails, notwithstanding that they are acknowledged to be too high. Jobbers and their representatives claim that the association has made a mistake. Consumers will doubtless agree with this claim.

A new joist hanger has been put upon the market by a Cleveland manufacturer. It is forged from rolled steel, having an ultimate tensile strength of 56,000 lbs. per square inch. It is formed with a hook to fit over the top of the header, and is notched so as to come level. Two heavy wire nails hold it, and the flanges at the sides may be spiked if preferred; the joists also may be fixed with a wire nail through a hole in the bottom of the hanger. These hangers are made in sizes to fit any kind of joist. By the addition of a Z-shaped wall plate they can be built into the wall.

An ingenious way of welding lead is to carefully clean the surfaces to be joined and place a thin layer of lead amalgam between them. By passing an ordinary soldering iron along the line of junction, the mercury of the amalgam is vaporized, and the lead, set free in an exceedingly finely divided state, fuses and unites the two surfaces together.

The National Association of Builders will open its annual convention at Buffalo, on Sept. 15th next. In an address, which every member of the building trades should read, to the filial members of the Association, the secretary, Wm. H. Sayward, states that it is apparent that at the convention a considerable portion of the time should be devoted to the discussion of the question: Are organizations of builders, either local or national, desirable? If so, what are the functions of such bodies, and should the value of organizations be measured by or dependent upon immediate results only?

A fireproof composition that has been tested and used, is made of old bricks ground up by powerful steam crushers and mixed with Portland cement. This may be a valuable hint in a city where so much renewing of buildings is going on as in this one.

The movement for providing improved dwellings for the poor has taken business shape by the incorporation, at Albany, of the City and Suburban Homes Company, with a capital of $1,000,000. Its officers are as follows: President, Dr. E. R. L. Gould; Vice-President, Samuel B. Babcock; Chairman of the Board of Directors, R. F. Cutting; Treasurer, Charles Stewart Smith; Secretary, A. W. Millbury.

The trade will be surprised to learn from "The Mail and Express" that the twenty-six stories of the new building on Park row are "to be piled one on top of the other." Until this piece of information leaked out it was thought that the twenty-six stories were to be arranged in a line around the Post Office.

The Real Estate Market

A typical summer week in realty circles was brought to a close yesterday. Business was remarkably dull all around, in the brokers' offices as well as in the auction rooms. A great deal more interest was manifested in the reports from the Chicago nominating convention than in the discussion of the subject usually nearest the heart of speculative real estate owners and dealers. The question of the free and unlimited coinage of silver and the overwhelming victory of its Democratic advocates have already interfered with the summer business, limited as it has been this season, and was expected to be, until fall. One lot sale for improvement at a six-figure price that it was intended should be closed this week, has practically fallen through, because the owner insisted at almost the last moment in having a gold clause inserted in purchase money mortgages, and the prospective buyer and builder refused to assume what he considered a possible additional obligation. There will probably be few, if any, more such occurrences, but the effect of the uncertain future of our National finances will doubtless be to prevent for some time at least the consideration of a number of sales and purchases. The appended reports of transactions closed indicate a total investment of about $750,000.

The following are the comparative tables for New York Conveyances, Mortgages and Projected Buildings for the corresponding weeks of 1895 and 1896:

The auction sales since Monday have been exclusively of property under decrees of foreclosure, and embracing only very ordinary parcels excited little interest. On Wednesday the only attempt of the week to sell a voluntary offering was made by Charles A. Berrian. He failed, however, to get a bid for any reasonable sum on a frame house and plot of four lots on the south side of 189th street, between 3d and Washington avenues. On the same day, Strong & Ireland adjourned to the 21st inst., a foreclosure sale of a leasehold interest in No. 287 3d avenue. On Thursday a similarly announced sale of property on the southerly corner of Macomb's Dam road and Tremont avenue was adjourned sine die by Hall J. How & Co. Yesterday William Kennelly adjourned to the 20th inst. a sale of Nos. 330 to 334 East 98th street.

James L. Wells and Charles A. Berrian, as announced in this column last week, will conduct a very important sale of North Side lots, in the Real Estate Salesroom, No. 111 Broadway, on Tuesday next, the 14th inst. The property to be disposed of consists of 124 choice Tremont lots, immediately adjoining the 183d street station of the Harlem Railroad. Announcement is made that this station was opened this week, and this fact will doubtless bring buyers and have a favorable influence on the results of the sale. The more definite location of the lots will be found, with other important information, in the formal notice of the sale in our advertising pages.

Gossip of the Week.

SOUTH OF 59TH STREET.

David E. Oppenheimer and Joseph Hamershlag have added to their last week's purchase of Wooster street property from Amos R. Eno, by securing under contract from George Marchand the adjoining lot, 25x100, and old building No. 153 on that street, at a price which is said to exceed $30,000.

The same operators have resold, through M. & L. Hess, the plot, 75x100, Nos. 141 to 145 Wooster street, to a builder who will erect an eight-story business structure.

S. G. Hyatt & Co. have sold for J. W. Alexander, the four-story stone front dwelling, 20x50x100.5, No. 247 West 55th street, to Mrs. Winifred Tyson, for $24,000.

Julius Friend has sold for William W. Horton, at about $50,000, the six-story brick store and loft building, 25x100, No. 158 Wooster street.

Nicholas Bunn has sold for Paul Obalskie, the six-story tenement with lot 25x103.3, No. 256 West 15th street, to John Eichler, for $40,600.

Elias and S. Kempner have sold the four-story brick tenement, 20x50x92, No. 420 East 20th street.

Arthur R. Parsons and William Armstrong & Co. are the brokers in a trade involving property valued at about $115,000 that has been arranged between Mrs. Rosina Vollhart and Mrs. Walter I. Averill. The contract calls for the transfer by the former of the five-story brick flat with store, lot 43x100x38x irregular x70, Nos. 7 and 9 Carmine street, in exchange for the five-story marble front flat, 34.11 and 35x90x100.11, Nos 9 and 11 East 115th street.

Oliver Bryan has negotiated a trade between Emily S. Hutchinson and J. H. Dutting. It provides for the sale by the former, at $24,000, of the five-story stone front flat, lot 20x100.5, No. 429 West 57th street and the taking in exchange, at a valuation of $18,000, the three-story stone front dwelling with lot 20x99.11, No. 222 West 130th street.

Pincus Lowenfeld and William Prager have sold to Builder Harry Fischel the lot 24.9x96.2 with old tenement No. 266 East 4th street. The buyer will pay an advance on $13,000 the price the property brought by auction last week, and will improve by erecting a six-story tenement.

NORTH OF 59TH STREET.

Builder Jere. C. Lyons has bought of William D. Nichols, at about $85,000, for improvement, the block front 204.4x51, on the east side of Lexington avenue, between 79th and 80th streets inclusive of the seller's residence, No. 153 East 79th street, which is to be vacated at once and torn down.

Ferdinand Kurzman has sold to Edward Nicholson, for immediate improvement, a plot, 50x100.11, on the south side of 116th street, 350 feet east of 8th avenue.

Fitzsimons & Smith have sold for Builder William Drought, the new five-story brick double flat, 35x90x102.2, No. 153 West 80th street.

K. Hayden & Co. have sold for Mary Smith, the three-story brick tenement with store, lot 20x90, No. 2627 8th avenue, between 140th and 141st streets, to Mary Wheeler, for $10,250.

Elias and S. Kempner have sold the five-story brick tenement, 25x80x100.11, No. 338 East 115th street.

Builder George B. Ruddell has sold the three-story stone front dwelling, 19x56x99.11, No. 463 West 143d street, one of a new row of four, to W. J. Kronenbitter.

James Tichborne has sold for Miles M. O'Brien, the three-story stone front dwelling with lot 17x102.2, No. 135 East 71st street, to Aaron M. Myres, for $16,500.

Tim & Co. (Columbus avenue office), have sold for Mrs. Jennie Gallinger, the two five-story stone front double flats, 25x85x100.11 each, Nos. 3 and 5 West 103d street, to S. Wolf, for something under $53,000.

Eckel & Batterman have sold for Mrs. Elizabeth Euler, the five-story brick flat with lot 25x99.11, No. 493 West 130th street, to David Hutchison. The adjoining flat, No. 495, was recently sold by Mrs. Euler for $23,000.

Frederick Zittel has sold for Mrs. Arthur Dyett, the four-story stone front dwelling with lot 19x100.5, No. 53 West 68th street. A Mr. Fraser is reported as the buyer, at a price close to $32,000. The house figured in a trade between Mrs. Dyett and Francis A. Palmer, in April, and was transferred to the latter for an expressed consideration of $37,000. Subsequently it was put up at auction, sold for $29,100 and a week or two afterward resold by the purchaser to Mrs. Dyett at an advance. It is to be hoped that the latest buyer has not bought on speculation.

Particulars of trades in which figure the flat Nos. 9 and 11 East 115th street and the dwelling No. 222 West 130th street, will be found below.

LEASES.

John R. Todd has leased to the Syndicate Trading Company the new and as yet unfinished seven-story business structure on the northeast corner of West Broadway and Walker street, for a term of 10 years, at a gross rental of about $170,000.

NORTH SIDE.

James Tichborne has sold a lot, 25x114, on 20th avenue, between 2d and 3d streets, Wakefield, to Wm. Paterson, for improvement. The price obtained equals the figure paid eight years ago by the seller for a plot of four lots, showing an increase of 300 per cent.

Bulider Louis Wirth has bought of Michael Conlan and Terence Gannon, for improvement, a plot, 100x125, consisting of one-half the block front on the west side of St. Ann's avenue, between 135th and 136th streets. The entire property was recently sold by auction for $38,600.

Concerning Real Estate Agents and Brokers.

S. H. Pretzfelder, of No. 229 Broadway, is one of the few old-time experienced brokers who make a specialty of negotiating mortgage loans. He is widely known in realty circles, and has for over twenty-five years conducted business with success. His clients embrace many builders who have good reason to know that Mr. Pretzfelder, can place loans quickly, and on reasonable terms. His office is at No. 229 Broadway, opposite the Post Office. Telephone call 4652 Cortlandt.

Removal.

Pierre Aguado, stone cutter, has removed his force and plant from No. 137 West 27th street to No. 230 West 30th street, where he has better facilities for turning out contracts. Mr. Aguado makes a specialty of treating brownstone either in the newly quarried block or in altering and repairing stone that has already been in use.

Trade Notes.

ARTIFICIAL STONE AND ASPHALT PAVEMENTS.

George Schillinger & Co., of No. 1666 1st avenue, corner of 87th street, are expert workers in artificial stone and asphalt for sidewalks, cellars, stable floors, breweries, malt houses, slaughter houses, etc., and their list of places in which they have completed work embraces many institutions, public schools, breweries, stables, factories and private houses in and around New York. They are conscientious and painstaking workers and enjoy the confidence of a constantly growing circle of customers.

ST. JAMES' CHURCH RAZED.

Candee & Krekeler, the well-known contractors, are razing the Church of St. James, on the northeast corner of Madison avenue and 42d street; also the rectory and dwelling adjoining. The work is being done with care and dispatch. Messrs. Candee & Krekeler's main yard is at Hamilton avenue, opposite 15th street, Brooklyn. Telephone call 313 South Brooklyn.

CONVEYANCES.

Wherever the letters Q. C., C. a. G. and B. & S. occur, preceded by the name of the grantee, they mean as follows:

1st—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed which all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed can be impeached, charged or encumbered.

3d—B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no express covenants, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it.

The street and avenue numbers given in these lists are, in all cases, taken from the Insurance maps when they are not mentioned in the Deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made of them by the Department of Public Works.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that is is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date. Whenever the rate is not given, read as 6 per cent.

Mortgages against 23d and 24th Ward properties will be found all together at the foot of this list.

[1]Editor of Record and Guide:

The amount of this lien is unjust and it will be bonded. G. G. Youngs.

[2]Editor Record and Guide:

The line filed by the Batavia and New York Wood Working Co. against my property is unjust. I had offered them ample security until the sale of three of my 148th street houses was consummated, which sale was closed to-day, July 10 John E. Darragh, 217 West 125th St.

[3]Editor of Record and Guide:

The above lien by Cooper & Newmark is unjust. They have not completed their contract and are entitled to nothing, and the lien will be bonded. D. Steinfeld.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for further particulars see the list of transfers under the corresponding date. Whenever the rate is not given, read as 6 per cent.

BUILDING MATERIAL MARKET

NEW YORK.

BRICKS.—No changes of a radical nature have occurred in the general situation of the market. Buyers as a rule have continued decidedly indifferent, taking only such supplies as they have been in absolute want of, and consequently the amount of business transacted has been very moderate and comprised almost exclusively of small orders. No changes have been made in quotations, but there has been a general absence of tone to the market, and this, too, has had a tendency to keep buyers back, as they have been inclined to look for a reduction in values. Despite, however, the very moderate demand there has been no further increase in the accumulation of supplies in sellers' hands—25 barges—as shipments have shown something of a decrease. Prices for up river have ranged at from $4 to $5 according to quality, and for specials $5.25 has continued the price. There has been a fairly active demand for good pale bricks which have ruled steady, but the poorer grades have not been wanted and they have dragged along at $1.50@1.75. No changes have occurred in the market for Jerseys; the best grades have moved moderately at $4.25, and in instances $4.50 has been paid; for the more common descriptions, however, there has been a tame market, and for such prices have ranged from $3.50 to $4.00, according to quality.

CEMENT.—There has continued a fairly good tone to the market. A moderate call has been reported for Rosendale, which has been selling at steady prices, bringing 80c. to 85c. For American Portland cement we understand that there has been a very good inquiry latterly and that at the East all factories have been busily working filling orders.

IRON AND STEEL.—Little if any changes have occurred in the market for pig iron. The amount of business transacted has been very moderate and while no changes have been made in quoted values, the tone has continued easy. We quote at $12.50@13.00 per ton for No. 1 X foundry; $11.50@12.00 for No 2 X do., and $11.00@11.25 for Gray Forge. There has been a very tame market for old material. Buyers have been indifferent operators and their bids as a rule have been about 50c. under sellers' ideas. We quote at $13.00@13.50 for old iron rails; $12.00@12.25 for No 1 wrought scrap; $11.00@11.50 for cast scrap; $12.00@12.50 for old car wheels, and $7.00@9.50 for borings, stove plate, etc. There have been no encouraging developments in the market for manufactured iron and steel. While mills have been kept moderately busy on old orders new business has been decidedly slow, and there has been a general absence of tone to prices. Steel rails have been quiet and unchanged at $28 f. o. b. mills.

LATH.—The market for lath has appeared to be in fair shape. A fair amount of stock has been moved during the past week at prices ranging from $1.65@1.75, and included in the transactions reported was a sale of 1,000,000 at $1.75. At the close we understand that the market has been fairly well cleaned up of supplies, the stock on offer not exceeding 1,500,000, and prices showed considerable steadiness with $1.65@1.75 quoted as a fair range for values.

LIME.—Only a very limited amount of business has been transacted, but as the supplies arriving have been small there have been no accumulation in sellers' hands and prices have ruled steady with common Rockland quoted at 70@75c. and finishing do. at 85c.; common Thomaston has been quoted at 65@70c. and finishing do. at 75@80c. There has been very little state lime on the market and for such the prices quoted have been largely nominal.

LUMBER.—No improvement can be advised as regards the general condition of the market. Trade, to say the least, has continued in a very unsatisfactory condition, as what few orders there have been received have been for small lots to meet immediate requirements, as buyers are inclined to pursue the hand to mouth policy in all their operations, as the favor silver has met with at the Chicago Convention has had an unfavorable influence, although generally anticipated. Reports from the East state that there has been general talk among mills of shutting down and holding their logs until the market gets in a shape more to their liking. The demand in the provinces from England for deals has continued on a fairly extensive scale and at steady values. There has also been a moderate amount of lumber taken for shipment to South America.

In the market for pines there have been no change. The amount of business transacted has been decidedly limited, as the only demand has been for small straggling lots to fill immediate requirements and prices have continued without tone particularly for white and yellow. North Carolina pine has moved slowly, but the prospects of a reduced production has given rather more tone to values.

Not the slightest change was to be noted in the market for Eastern spruce. The number of cargoes on offer have been very moderate, as shipments to this market have continued comparatively small, but as demand has been of very limited proportions the call for lumber from the yards having been small, prices have shown no particular steadiness; in fact, they have no more than held their own. Offerings of West Virginia spruce have been fair, and moderate sales have been made in car load lots at fairly steady values. Only a very limited amount of business has been transacted in hemlock, and there have been some offerings of odd lots at slight concessions from quoted prices, but to obtain any kind of a bill buyers have found it necessary to pay full quoted rates.

Business in the market for hardwoods has been in a very unsatisfactory shape. Demand has been decidedly slow from all quarters, and while no changes have been made in quotations, buyers have experienced comparatively little difficulty in obtaining slight concessions when they wanted supplies. This, however, does not apply to quartered and plain oak, of which there is a comparatively light supply, and as they have had a limited call they have been well maintained in value.

The "Northwestern Lumberman" had the following on tropical cabinet woods: "The manufacturers and dealers in domestic cabinet lumber before long will be confronted by a competition that they little apprehend at the present time. This competition will come from tropical woods. All house finishers and furniture makers are doubtless aware of the growing demand for mahogany. In spite of its high cost the use of it is increasing. In many costly residences and business structures mahogany is the favorite for some portions of the interior work. It is considered the acme of merit for cabinet finish. The same rule applies to furniture. As the number of people who are able to use mahogany increases in this country, there will be a continual enlargement of the demand for it. Kindred to this superb wood are several other kinds of tropical growths, which are increasingly coming into vogue. The number of them is much greater than the average lumberman and woodworker is aware of. The forests of the West Indies, Central America, and tropical South America, as well as the forests in Asia, Africa and the islands of the eastern hemisphere abound in tree growths as well adapted to cabinet wood as is mahogany, and their variety and figure are almost countless. The great difficulties attending the introduction of these woods into the commerce and industries of this country are in their remoteness from market, high cost of getting out the logs, and shipping them to American ports. Much of the timber is also comparatively inaccessible from the coasts, and much of it has to be reached by traversing mountain districts. The difficulty of logging and milling in a torrid climate and in countries where government protection and friendliness are always doubtful quantities are also drawbacks to be overcome. But in process of time all these adverse conditions will be adjusted by the persistent effort of enterprising operators."

METALS.—There has been a slight reaction in the prices for ingot copper but the general tone continued steady. Business has been fairly brisk as the home trade has been moderate and the purchases for export have been fair, although showing something of shrinkage from the average demand latterly. At this writing Lake Superior was quoted steady at 11½c. and other descriptions at 10¾@11¾c. The demand for manufactured copper has continued limited,

IT ought to surprise no one if the stock market is disturbed rather more frequently than usual between now and November. We pointed out weeks ago that the coming campaign was one that would be disturbing to an unusual degree. The consequences to trade and finance with which the differences among political parties have been fraught have rarely been as serious as they are to-day. To the business element of the country the one great issue of maintaining the gold standard for our currency is a matter of life or death. Consequently, whenever the fears of the timid are aroused, as they have been since the Chicago nomination, we may look for a slump in prices, and until the election has been held there will be an unusual uncertainty about future quotations, irrespective of the conditions of the properties whose values they gauge. The immediate cause of the break of this week was the talk of the nomination of a sound money Democrat. It was argued that such a course would divide the gold forces, and thereby strengthen the chances, whatever they may be, of the representative of silver. No one questions now that the campaign is one purely and simply of a choice between the two metals, and any division among the supporters of one will encourage the adherents of the other. Within the Democratic party lines there is, in some quarters, a disinclination to accept this simple view of the object of the campaign, but looked at from the purely financial and commercial standpoint there is no other, and any attempt to obscure it will be, from the same standpoint, regarded unfavorably. The Democrats who cannot accept the Chicago platform and the John of Leyden of Populism who has been chosen to represent it before the people are agreed that the maintenance of the gold standard is synonymous with national prosperity, and they do not claim that they can elect their candidate if they nominate one, consequently it is difficult to minds concerned with the great commercial and national considerations involved, and untrammeled by party pride, prejudice or precedent, to understand why there should be a question of nominating a second candidate to represent the gold party in the one issue on which the battle is to be fought. While there is little belief that the Bryan and Sewall ticket can carry the country, its strength is by no means despised, and any action that will divide and thereby weaken the forces sent against it will be regarded with apprehension in business and monetary circles.

IT is only the outside public that works itself into a condition of excitement over the various questions that engage nations. The men behind the scenes, who are supposed to be loaded down with the cares and anxieties of state, take things pretty coolly. This may be explained by the fact that a large part of the so-called foreign complications are humbug, pure and simple, which only the newspapers and the crowd take with anything like seriousness. To the "statesmen" they are "shop," and full of the contempt which familiarity or a true conception of values breeds. Thus it is that, notwithstanding that the many points of European difference are as acute as ever, the responsible ministers are going off to their estates or on their travels and leaving the newspapers in despair for material for sensations. The Turk is still in occupation of Crete and the shores of the island blockaded by a British fleet; Russia is supposed to be still federating the Balkan states; Britain has not fixed a date for evacuating Egypt; Cecil Rhodes faces Matabeles in a particularly convenient war for him; the Transvaal Republic has not yet exacted the sacrifice of Messrs. Rhodes and Mr. Beit to appease the wrath of its burghers, and all the other bones of contention are still tempting the teeth of the dogs of diplomacy—but the public may wait for details until after the holidays. This makes dull times, and if it were not for the interest created by the uprise of Populism in Chicago last week there would be very little to say beyond that business is good everywhere and the cheapness of money so long continued that it has ceased to be phenomenal. The concensus of European opinion on the Chicago platform may be accepted as this: That it is one full of dangerous notions, but too extravagant to receive the indorsement of the nation at the polls next November; but it is for the United States to prove the honesty of its intentions, and meantime its securities are good things to let alone. This view does not differ much from that of capital on this side of the Atlantic, and is probably the most reasonable and rational that could be expected under the circumstances. When we are inclined to condemn Europe for its neglect of American securities, we must remember two things: There is no hesitation in other directions where the financial conditions are fairly stable, and that home capital persistently refuses to aid any buying movement that may be inaugurated. There has been all along a poor-heartedness about the Paris Exposition of 1900. It will be remembered that it was conceived in jealousy, the same proposition having previously been made for Berlin. Recently the bonds offered for subscription to meet expenses were not more than half subscribed. This in the prevailing plenitude of money, and in consideration of the privileges attached to the bond, cannot be taken as anything else than a public disapproval of the whole scheme. The new German Bourse law requires time operations in grain to be closed up by January 1 next, whereafter they are prohibited.

THE peculiar language of the Chicago platform has naturally raised the question whether Congress has power, if it should ever have the inclination, to nullify the gold clause in contracts or to make a debased currency legal tender for past as well as future debts. The *New York Law Journal*, in discussing this question, quotes an opinion of Chief Justice Chase, in which he says: "A contract to pay a certain number of dollars in gold or silver coin is, therefore, in legal import, nothing else than an agreement to deliver a certain weight of standard gold, to be ascertained by a count of coins, each of which is certified to contain a definite proportion of that weight." Similar decisions from other sources are given, and in commenting upon them and the doctrine they announce the *New York Law Journal* says: "It is at least doubtful whether Congress would have authority to legislate against the gold clause. If contracts to pay coin are simply engagements for the delivery of a specific commodity, how can Congress say that the citizen shall not be permitted to make and enforce a contract for gold dollars any more than one for iron or cloth? * * * Congress certainly cannot interfere with and assume to regulate the business dealings of citizens except under some power expressly or impliedly granted by the Constitution." Suppose, however, a contract calls for the payment of a certain number of dollars in gold and Congress were to reduce the number of grains in a gold dollar to bring it to an actual parity with the silver dollar. In such an event, unless the contract specified the weight and fineness of the gold dollars that were to be paid, it would not be any more valuable than if payable in any legal tender currency. It may seem absurd to put such a case, except in the knowledge that a Congress that would declare a fifty-cent silver dollar proper payment for one hundred cents worth of goods would not hesitate to make the gold dollar worth only fifty cents to carry out their ideas of repudiation, and the lesson of this is not to give too much time to beating dishonest future legislation by present laws, but to use every endeavor to prevent the possibility of such future legislation. If the people who adopted the Chicago platform ever control legislation, they will not stop at the extravagant and immoral programme they have now laid out for themselves.

NEW YORK CITY is now experiencing some of the results of granting franchises to railroad companies without due regard to future requirements. The Metropolitan Traction Company, directly or through companies which it controls, is now obstructing the improvement of the paving in several important thoroughfares. Its obstruction seems to be based on the idea that having once laid its tracks, any change in their grade must be made at the cost of the city. The Department of Public Works claims, on the other hand, that under its charter and the laws of 1860, it can be compelled to make its grades conform to any new grade that the city finds it necessary to make in the public streets to meet the requirements of the traffic at any given time. This would appear to be the right and proper thing. It is an obligation to which the street railroad companies have no reason to object considering the value of the franchises they enjoy. The Commissioner of Public Works, by the refusal of the company to raise their tracks on the Boulevard and on 1st avenue, is unable to repair those

thoroughfares at certain points where repairs are pressingly necessary. He threatens to do all the work and sue the Traction Company for the cost of those parts that properly fall upon it, and the taxpayers will look with approval upon any steps taken to carry this threat into execution, if the company continues obstinate. Such a course would, probably, bring the matter into the courts, where it will most probably go in any case, without delay and secure a settlement of the important questions raised with the least expense and loss of time. These questions appear to be whether the companies right to lay and operate a railroad upon the public streets is not accompanied with the responsibility of conforming to requirements created from time to time by necessary public improvements? or, whether having once laid their tracks any changes called for by the city must be made at the latter's expense? Judging from established precedents the position of the Department of Public Works is the correct one. In all cases where the safety of the public has called for them, changes in grades of railroads have been made at the expense of the corporations operating them. As examples the elevation of the railroad tracks in this city, Jersey City and Chicago may be quoted.

A Talk About Silver.

Q.—How many kinds of money are there in the United States?

A.—Broadly speaking, there are three, viz.: 1, gold money or its paper representative; 2, silver money or its paper representative; 3, paper money based upon the credit of the national government.

Q.—Does the Government to-day issue new paper money, based upon credit?

A.—No, the amount of this sort of money is limited to what is already in circulation. It is in the main a remnant of the war days.

Q.—What silver money does the Government coin to-day?

A.—It coins only subsidiary coins—ten cent pieces, quarters and the like—and such dollar pieces as it coins out of silver purchased under acts now repealed. While the Sherman Act was in force the Government was compelled to buy 4,500,000 ounces of silver monthly, against which Treasury notes were issued, and of this 4,500,000 ounces, 2,000,000 ounces were for a time coined monthly. In 1893 an act was passed stopping this purchase of silver and the issue of Treasury notes. Under the Sherman Act the Government bought 168,674,682 ounces of silver, and of it coined 27,974,857 ounces.

Q.—Why was the repeal deemed necessary?

A.—Because, as the figures show, the Government was becoming overloaded with silver.

Q.—How does the Government obtain gold bullion for coinage purposes? Buy it as it bought silver under the Sherman Act?

A.—No. Gold bullion is presented to the Government by private individuals who want it coined.

Q.—What do the Silverites want when they demand "free coinage of silver at the ratio of 16 to 1?"

A.—They want the Government to coin all silver presented to it free of charge, and when thus coining silver, an amount of it equal to sixteen times the weight of a gold dollar shall be stamped a dollar, and shall be legal tender for debts to any amount. Everybody to whom such a silver dollar may be presented in discharge of indebtedness must accept it (unless gold is specifically agreed upon) as equivalent to a gold dollar, no matter what the intrinsic or metal value of the silver coin may be.

Q.—What is the value of an amount of silver sixteen times the weight of a gold dollar?

A.—About fifty-three cents. That is, if you were to buy 100 cents worth of silver from any one who sells silver bullion you could, under the silverite programme, carry it to the Government and obtain in return two silver dollars, which everybody in this country would have to receive from you as equivalent to 200 cents. You would make on the transaction 94 cents.

Q.—Would anybody be benefited by this 16 to 1 policy?

A.—A relatively small number of people might be, momentarily. Those who had fixed debts, as mortgagors for instance, could, of course, discharge their obligations with fifty-three cent dollars. The silver mine owners also would obtain more for their products than at present.

Q.—Where would the general public "come in?"

A.—They would *not* "come in." It is difficult to see how they could "come in." The majority of people are wage-earners, and, of course, *they* would have to be satisfied every pay day with the depreciated silver dollar. And, to make matters worse for them the price of commodities would advance under the silver regime, so that these people would not only receive inferior money, but would have to pay more for everything they buy.

Q.—Why would the price of commodities advance?

A.—Suppose your tailor on Broadway is charging you, on a gold basis, $25 for a suit of clothes, do you think he would be content to receive from you under the silver programme twenty-five silver dollars, each of which is intrinsically worth only about fifty cents? Of course not. He would tend to advance the price in proportion to the depreciation of the currency. That is, he would demand about fifty silver dollars (each worth 53 cents) for the suit of clothes that on a gold basis he would be willing to part with for $25. It is inevitable that tradesmen and manufacturers would all act this way, for is not buying and selling an exchange of value for value? The farmer who sells three bushels of wheat in order that he may purchase, let us say, a pair of shoes, does so because he values the pair of boots as equivalent to his wheat. The mere say-so of the Government is not any more capable of making the fifty-three cents worth of silver a real equivalent of a dollar's worth of gold than it is capable of making the three bushels of wheat worth two pairs of boots. If it can do the one it can do the other.

Q.—You said: "*Perhaps*" people with fixed debts and silver mine owners might be benefited by free coinage. Isn't it certain that they would be benefited?

A.—No, it is not, because the silver policy might bring about and probably would bring about a financial condition so disturbed that they would lose more from panic and bad trade than they would gain from cheap money.

Q.—How could cheap money create a panic or produce bad trade?

A.—By destroying the confidence of people. Uncertainties about our currency would surely have a most disturbing effect upon the minds of people. Even assuming that the 16 to 1 policy is sound, it would be (if adopted) in the nature of an experiment, and until experience had demonstrated the truth of the silver party's contentions everybody who had anything at stake in the issue would be alarmed and fearful. People would not have confidence in one another, nor in the future, and the aim of everybody would be to preserve whatever he possessed. Panic and dense depression are sure to result from conditions of this kind. We have only to look back to see what happened in 1893 as a result of shaken confidence in the Government's ability to maintain the gold reserve in the Treasury at the normal point.

Q.—Then you mean to say that, right or wrong, one of the first effects of putting the silver plan into operation would be panic and bad times?

A.—Yes. The first consequences of all revolutionary measures are troublous and disastrous. The overturning of the old order of things is naturally destructive. It is a process for which somebody has to pay. The enormous value of conservatism lies in the fact that under it changes and dislocations are produced slowly and time is allowed for readjustments. The 16 to 1 plan of the Bryantites is the extreme radical application of the silver scheme.

Q.—It is said that the adoption of the Chicago platform would tend to drive gold from circulation and would put it at a premium. Is that so?

A.—Yes, it is. Poorer money drives better money out of circulation. If you had two separate dollars, one better than the other, which one would you part with first? You would do what all men would do under similar circumstances. You would pay out the inferior coin and retain, as long as you could, the superior one. Make that action general and you see that the fifty-three cent silver dollar would be kept in circulation and the 100 cent gold dollar would be hoarded. If people parted with the latter they would want more for it, and that is the condition of affairs that exist when gold is said to be at a premium.

Q.—But, if, under the free coinage of silver, the prices of commodities advanced, would not wages also rise?

A.—Yes, but remember the rise of wages would be a much slower process than the rise in the price of goods. The baker can at once advance the price of his bread, and with fifty-three cent dollars would have to do so to save himself from bankruptcy, but the workingman would have to count with his employer, who, with bad times confronting him, would probably be readier to close his factory than take any other step. In the end, no doubt, equalization would be effected; but when all wages and all commodities had been, say doubled, who would be better off? Everybody would get more than they did formerly for what they sold, but they would have to pay proportionately more for everything they might purchase. During the "shake up" the weak would suffer, and the weak are the very class the silver plan is supposed to benefit.

Proposed New Ferry.

The Board of Aldermen at their last meeting received a petition signed by many New York and Brooklyn merchants, praying that a ferry be established on the East River, between the foot of Market street, in this city, to a point near Wallabout market, Brooklyn, and referred the same to the Committee on Ferries and Franchises.

EQUAL RIGHTS FOR EMPLOYER AND EMPLOYED.

To the Editor of THE RECORD AND GUIDE,

Sir: I was greatly pleased with the sensible and timely article in your issue of May 9th last on building strikes in general—that on our Syndicate Building in particular.

While it is one of the inalienable rights of mechanics and laborers of all grades to form combinations to secure for themselves as good a return as possible for their labor and skill during reasonable working hours, and this right being conceded by the employer who agrees to pay the price demanded, common fairness would suggest that the employer be allowed to exercise his inalienable rights to employ whomsoever he pleases, as many or few as he may require and to discharge those who may prove to be lazy or incompetent or in any respect inimical to his interests.

Let us see just how much the employer's rights are regarded. A contractor told me recently that he put on a new man who seemed to realize that he must do his best in return for the good wages received, but lo! complaint was entered against him and he was warned that unless he went more slowly he would be "fined." Let an employer in some branches discharge a man for any cause other than of lack of work and see what a storm he will bring upon his devoted head.

Now, Mr. Editor, the strike on our building was neither more nor less than an attempt to arbitrarily limit the Sprague Electric Elevator Company to employ a certain proportion of unskilled to skilled labor, to which the company very properly refused submission, claiming that wages being settled the right of selection, proportion, and all other questions relating to the hiring of men was theirs.

Upon this issue the elevator constructors were ordered, on April 7th, to strike, which, like good soldiers, they do, for six long weeks. When this strike was ordered we had one elevator in operation, and two others perhaps two-thirds ready. The one elevator was kept running day and night to our disadvantage and extra expense; three were absolutely necessary to do the work of moving in furniture and fulfilling our contracts with tenants by April 27th. We were warned by the constructor's delegate on April 22d that the moment we should put ropes on our other two elevators in order to use them and thus fulfill our agreement with the tenants, he, the delegate, would have all the other trades go out on strike.

The union men thus refused to touch these elevators themselves, or to allow any one else to do so until the "Sprague" company should comply with their dictates. We waited as long as possible for both parties to settle their differences, then asked Sprague to go ahead and get elevators running. We succeeded in getting an additional elevator in operation on the 28th. Then the music began. At noon on the 28th of April the various trades, with two or three manly and independent exceptions, almost tumbled over each other in their anxiety to get out of the building to see how it looked from the opposite side of the street, and there they stood for days, waiting and whiling away the hours—some of them probably trying to ascertain a consistent reason for their action.

The painters and carpenters finding that they had acted hastily and unadvisedly, at the solicitation of their delegate, returned to work within two days, and probably many of the others were sorry that they had to stop and would have preferred to work but dared not because of the threatened "fine." And this, Mr. Editor, is our boasted free America. Mechanics of intelligence have to run unquestioningly at the beck and call of the delegates, no matter how unjust may be the order, even if their families, meantime, should suffer for the necessities of life.

The people who take upon themselves enormous risks and responsibilities in the building of such structures as the one in question, giving employment at high wages to thousands of mechanics, have, for years, been hampered and annoyed and browbeaten by these people who always select a building which is being hurried to prefer their demands (no matter how unreasonable, as in this instance), and we have to stand helplessly by and receive orders from these irresponsible citizens, orders which (as with us) cannot be complied with, whereupon they proceed in every way within their power to wreck and ruin the whole enterprise. True, they may be arrested for conspiracy, which only brings them into their coveted notoriety, but retrieves no loss; neither District Attorney or judge cares to handle a labor conspiracy case, and a jury dislikes to convict. Verily, we Americans are a long-suffering people, else the employing interests would have combined long since for their own protection; such tyranny would not be tolerated in Russia.

We waited a reasonable time for the men to return to work, then, wearying of unfulfilled promises of settlement in a "day or two," we served notices on the employers, who promptly acknowledged their inability to do anything. We secured non-union plasterers, wire-men, marble men, etc., etc., and the work went on, despite the threats, coaxing and offers of steady employment to these men if they would only leave our job. Failing in these tactics the Board called on the writer and stated at their first call that if we would call out the non-union men they would call the strike off. At the second visit, they were willing to allow Sprague's non-union men to stay at work with them. I replied (in both interviews) that we would not break our agreements with the non-union men who had gone to work in good faith—then one and another delegate allowed his men to return to work (on various parts of the building, to which I restricted them); thus we were instrumental in doing our best to hasten the desired building millenium, when union and non-union men can work together, side by side, with none to molest or make them afraid.

Meantime, the practical solution of these difficulties—one might almost say bars—to building operations should be found in a properly accredited Board of Arbitration, whose decision should be binding on both sides to such an extent that it would be more expensive for the losing side to act contrary to the decision of said Board, or, if a sufficient money guarantee cannot be furnished to accomplish the result, then fight them with their own fire, extend all over the city a counter-organization formed on the lines of resistance to so-called sympathetic strikes, and to dictation by the men in any matter whatsoever, except regarding wages and hours. Such an organization, for instance, as the Builders' League, of New York, from which we received our help in our time of need, and but for which we would have been stranded.

In either method, let us have relief and let it come as soon as possible, before the building interests shall be ruined completely. The employers and architects alone are to blame for the present socialistic state of building affairs. Forbearance has long since ceased to be a virtue—united and prompt action is imperative.

Lessee's Liability for Assessments.

Justice Beekman, in Special Term, rendered a decision in an interesting case growing out of the College place widening, on Tuesday last. Plaintiffs were Mary H. Arthur and others, owners of No. 205 Greenwich street, and defendant Honora Harty, the lessee of same under a twenty-one years' lease with the privilege of a renewal or the purchase by the landlord of the building, the rent reserved being a ground rent. Part of the property was taken for the improvement. The total assesment made in respect to the demised premises was $855.70, which was apportioned by the Commissioners as between the leasehold estate and the reversion by imposing $20 upon the former and $835.70 upon the latter. The amount awarded to the plaintiffs exceeded the amount charged against them for benefit. Suit was brought to recover from the lessee the $835.70 paid under the following clause of the lease:

"That the said parties of the second part, their executors, administrators or assigns, shall and will, during the said term hereby created or any renewal thereof, well and truly pay or cause to be paid any and all taxes, assessments or water rents that may be laid, levied, charged or assessed upon or against said demised premises, or any part thereof, as and when the same shall severally become or be due and payable, or within at least three months thereafter; and that in all things they will observe and comply with all ordinances, laws, rules and regulations of the municipal authorities of the City of New York, or any of them, in relation to the use, occupancy and care of said premises and of every part and parcel thereof, and of the buildings erected or to be erected thereon, and will pay or cause to be paid all fines or penalties or other charges that may be levied, assessed or charged upon or against said premises or any part thereof, or upon or against the buildings erected or to be erected thereon, or any of them, for or by reason of any failure to comply with or infraction of such ordinances, laws, rules and regulations as and when the same shall severally become or be due and payable."

Justice Beekman said it was plainly within the contemplation of the parties that the rental should be a net sum, and should not be subject to any diminution by reason of any of those charges or impositions by way of taxes, assessment or penalty which grow out of the ownership, occupation and use of real estate. It was plainly stipulated that all of such charges should be borne by the tenant, who had his compensation in the in-

creased rental value which might reasonably be expected from the property. Stripping the matter of all technicalities, the fact was beyond dispute that the plaintiffs were out of pocket in the sum of $835.70 by reason of the fact that the Commissioners of Estimate and Assessment had subjected them as owners of the demised premises to the payment and discharge, in some form at least, of that amount upon an assessment of the same as their proportionate share of benefit resulting from the widening of College place; and he thought it equally clear that there was an obligation on the part of the defendant to make good this amount to the plaintiffs under the covenant in question, according to its plain meaning and intent.

Flats and Their Future.

At irregular intervals one or other of the daily newspapers has a story of the injury done to flat property by the upgrowth of certain practices among builders, agents and tenants, which, they assume, either do, or in the near future will seriously depreciate the investment value of flat property. It is very often the case with these statements that while the premises are correct the conclusions are entirely inaccurate.

It is not claimed for the flat business, if such a term may be used to cover both the building and renting of apartment houses, that in it everything is fair and above board; far from it. In this business, as in every other, there are irresponsible and dishonorable people, who are not only a discredit to it, but a thorn in the side of reputable builders and agents. Being unrestrained by the responsibilities of capital, credit or morals they resort to practices which reflect on the whole of the business and create one of its drawbacks. But when all is said that can be said of the practices of these people and their results, it cannot be claimed that they either destroy or menace the investment value of New York City apartment house or flat property.

There are people who find that they have been deceived by misrepresentations, and that they have undesirable properties on their hands, or properties that do not prove to be the bonanzas they were represented to be. While admitting this, a well-known broker and agent, whose opinion was sought, said New York City flat property could be bought right along to pay a certain five or six per cent, and a sharp buyer could get as much as seven or eight per cent. The same broker estimated that the city is a year ahead in its building, and gave that as one of the reasons why rents suffered and the percentage of vacancies is so high. He gave an instance of an over-estimated property, which, on examination in the interest of a buyer, proved to be only two-thirds occupied, and still showed a fair return on the valuation. That this is not an isolated case is proved by the way flat property, as well as other realty located in this city, has kept its value in spite of a protracted deplorably poor demand.

Now, what are the evil practices complained of? The worst of them is, undoubtedly, the way some speculative builders prepare their goods for mortgage or sale. The builders referred to have little or no capital, and on that account are not timid about assuming obligations. It may be that they buy lots with a building loan, put up an expensive building and look to the proceeds of the permanent loan to pay off everything, including their own personal expenses, and perhaps their profits. In this case the opprobrium belonging to their action, whenever it is opprobrious, must be shared equally between the builder and the owner of the lots and maker of the building loan. To get a large mortgage an adequate showing of rental must be made, and this is done by filling the house with tenants at specified rentals, which are only three-quarters true, because of the concessions that have been made either in actual money or rent-free periods. But this is such an old trick that no experienced loaner of money on mortgage or buyer can be deceived by it, except through his own carelessness. It is as likely as not that these loans are made rather on the assumption that the property is good for the mortgage than in a belief that it is the excellent thing it is represented to be, otherwise it would disprove the saying that all the people cannot be fooled all the time. It is such an easy thing to test the truth of these statements of rentals. The loaner of money or the intending buyer, in case a sale is on the carpet, need only inspect similar houses in the same locality to ascertain the demand for flats there, and put a few questions to the janitors in relation to rents, to form a pretty fair estimate of the rental value of the particular property in question. As to fictitious rents, they can have no permanence. A flat that begins with a rental of, say, $800, with three months free, will only be renewed at $600, if that is the rent for a similar flat in the same locality. It is the market, or the demand, that adjusts these things. Very often it is the tenants who are fooled by the so-called cut-rate.

We hear so much of flats that do not pay that it is perfectly wonderful that any one can be found to buy any at any price, yet they can, and at good prices, too. Moreover, the making of new ones goes on briskly from year to year in spite of all that has been said of the nefarious schemes through which they are mortgaged or sold. Either these stories are exaggerated or the Barnum dictum, that the public like to be fooled, has a very wide application in the placing of loans and the purchase of realty in this city. The most reasonable supposition is that, as before stated, neither loans nor purchases are made, except in a very few instances, by people conspicuous for simplemindedness and trustfulness, on the glowing representations of the owner anxious to sell or the agent anxious to make a commission, but upon a common sense view of the facts of the case and in an honest and reasonable expectation that the property is good for principal and interest on the mortgage or will pay a fair return upon the capital invested. Any other supposition is inconsistent with the known condition of the market during the three trying years just elapsed. To overlook this and form conclusions from isolated cases is not only illogical, but unfair. Even the cases where, undoubtedly, deceit has been practised, the losses or misconceptions would have been avoided if the advice of a reputable agent had been sought in every one of them.

Losses of rents have been made during the past year or two owing to the change that has been brought about during that time in the season for renting. There was a time when all New York appeared to be moving on the 1st of May. Leases now date, in many parts of the city, from October 1st, or after the vacation period, but the term is for a year as it was before, and when the same date is the general one for commencing a tenancy the loss of rents for the summer months will be very small. A tenant whose term expires on May 1st and intends to spend the hot months in the country will not take a new house or flat until his return, but when once he has begun to date his tenancy from the fall, he cannot avoid payment of rent for any part of the year. It is a common thing for some to try and beg off the last three or four months of their term or to claim abatement of rent because they do not occupy the habitation during those months. Whether they are successful or not depends upon circumstances. Some simply get up and go, and, as people who do this are dishonorable people and rarely worth powder and shot, they are not pursued into the courts, the landlord simply taking the loss of rents, but these are only a very small proportion of the tenants of even the low-priced flats. One particular landlord may be unfortunate in getting more than his share of such unsatisfactory people in one year, but, on the whole, the losses of rents from this cause is not great. A tenant who will take an apartment out of season may rely on getting a concession if he asks for it, more or less, according to the temper of the owner or agent, or to the prospects for the apartment remaining vacant until the next renting season. But this is really fat for the owner and swells rather than diminishes his returns.

Another thing that must not be forgotten is that the stagnation in general business throughout the country has brought an immense amount of capital into New York City realty in the past three years. This has stimulated building and the competition of the new houses has brought down rents, so that the investment returns that were possible even so short a period as three or four years ago, are not so possible now. When trading and manufacturing begin to thrive again, drawing capital away from the present limited areas of investment, there may come a change, though this is not as likely to be the case in this city as in other places where the people are proportionately fewer, and in a general sense, less opulent than they are here. The colossal permanent investments of the great moneyed corporations, and the well-known moneyed people are a guarantee to values of New York City realty. Not so much of this money is in flat property as in other classes, but the former cannot fail to benefit by the steadiness of the latter. Finally, if we allow for every kind of drawback, either arising from dishonesty or the ordinary exigencies that arise in the business of renting flats, as in every other business, and look at the matter from the view of common sense, carefully considering the facts that the operations of the market bring to light, there is no ground for fearing a loss in the values of flat property, or in their return, except that the latter may be affected by the well-known law that a pressure of capital in any direction means a lowering of the return made therein. If, for example, flat property as a whole returns five per cent on the investment this year and next year only four per cent, it will not be because this or that agent or owner reduces rents in the limited sphere of his operations, but because the cheapness of money has brought down the rates of interest, and while the returns will be reduced the value of the property will remain unchanged.

The New Index.

The new enlarged Index to "The Record and Guide," already announced, is the only Index that will be issued. It will contain references to about 25,000 separate items, divided as follows: About 11,000 Conveyances, about 10,500 Mortgages, about 2,000 Leases, and about 1,500 Projected Buildings—making a complete Index to all real estate operations in New York City. The price will be $2 a year—$1 for an Index to each semi-annual volume of "The Record and Guide."

Readers who want this Index must send in their orders at once to the offices of publication, Nos. 14 and 16 Vesey street, New York City.

Copies Wanted.

Fifteen cents each will be paid for copies of the "Record and Guide," Nos. 1296, 1302 and 1303, delivered at our office in good condition; also 40 cents for Indices to Volumes 17, 41 and 43.

Rapid Transit.

The Manhattan Elevated Railroad Company, on Thursday, presented to the Rapid Transit Railroad Company, amended plans for extending its lines. Their original plan was given in our issue of June 6th last. The changes made by the later plan refer to the northerly extensions only. Instead of extending the branch from 149th street along the Westchester road to the Bronx River, it is now proposed to make it turn off at Intervale avenue and continue along that thoroughfare to the Boston road; thence northeast to the Southern Boulevard, thence to 187th street, where a turn east will be made to reach Bronx Parkway; thence running into Pelham road, and diverging further north into the Old Boston Post road; thence a northerly course is proposed through private property and Bronx Wood Park to Cedar avenue, thence across Briggs avenue to 4th avenue, and through private property to 4th street, in the town of Williamsville. This is to be a four-track road.

The company also asked permission to build a trolley road, operated by overhead wires over the following route, in place of the extension originally proposed along the Fordham road, from 177th street to St. John's College grounds: From Kingsbridge road at its intersection with Vanderbilt avenue to the Fordham station of the Hudson River Railroad; to Marion avenue; through Bedford Park, crossing Mosholu Parkway, to Gun Hill road; to Jerome avenue, thence south along Jerome avenue and through private property to the New York and Putnam Railroad Company's bridge; across the bridge to 155th street and 8th avenue, connecting with the present "L" structure there.

Mr. George Gould, who presented the amended plans, intimated that they were made with the understanding that at least owners of 75 per cent of the property along the line of the route would consent to the building of the lines and waive claims for damages. This stipulation does not apply to the proposed downtown spurs and extensions of the elevated railroad.

At the same meeting Mr. W. B. Parsons, Chief Engineer to the Commission, submitted a new scheme for a rapid transit railroad, which had been prepared under advice of counsel to conform with the requirements of the law and with the requirements implied by the opinion of the Supreme Court—Appelate Division. The cost was estimated at $26,500,000, exclusive of damages to property, and the capacity of the line when built to be equal to a 20-minute service between the Post Office and 135th street, on the West Side, and 140th street, on the East Side. It was as follows:

I suggest a route commencing at the southwest corner of City Hall Park, with a station on Broadway. Thence with a two-track loop around the park, merging into one four-track road at Brooklyn Bridge. Thence northerly with four tracks under Elm street and 4th avenue to 42d street. Thence diverging with one two-track road under 42d street to Broadway, and under Broadway and the Boulevard to 135th street. Also an East Side route to have one two-track road, commencing at the junction at 42d street and through and along 4th avenue and across the Harlem River, as proposed in the previous plans, or a route diverging from 4th avenue to the west at about 110th street, and running northerly across private property to the Harlem River.

After crossing the Harlem River, I do not suggest any route, as before making any suggestions I prefer to ascertain the views of those residing in the Annexed District, and adopt such a location as will prove most acceptable to the population and be productive of the greatest traffic.

On the east side line, north of 110th street, and on the west side line north of 42d street, I suggest the construction of a third track for a distance of about one mile on each route. These third tracks would be used as express tracks for southbound trains in the morning and for northbound trains in the afternoon. South of 42d street two of the four tracks would, of course, be devoted to the express trains. All of the two-track and three-track portions would be so designed and constructed as to be capable of enlargement into four-track systems at any time that such change may become necessary, and in like manner the suggested plans and route will render possible further extensions to the north on both sides of the city, or south from the Post office.

The New East River Bridge.

The New East River Bridge Commission has adopted final plans for the new bridge according to which it will run parallel to the south side of Delancey street., from Clinton street to the river, in this city, and in Brooklyn on a parallel line to South 6th street to Bedford avenue, where a turn will be made for half a block north, when its course will be continued to Driggs avenue. In New York an approach taking in two whole blocks, from Clinton to Norfolk street and from Delancey to Broome street will be made. The Brooklyn approaches will cover about the same area, and will extend to Havemeyer street.

The Brooklyn end of the plan, however, is merely tentative, for it is proposed that the Commission shall apply to the next Legislature for authority to construct the bridge on a line parallel to South 6th street, there being legal difficulties in the way of that plan at present.

The new enlarged Index to "The Record and Guide," already tain references to about 25,000 separate items, divided as fol- announced, is the only Index that will be issued. New Buildings Completed and Under Way.

F. O. Johannesen is at work on two double and four single five-story flats, on a plot 75x201.10, extending from 112th to 113th street, 100 feet east of 7th avenue. Three stories were up early in the week and the houses will be ready for tenants by Nov. 1. These flats are in a choice location, and 112th street is now being paved with asphalt. Mr. Johannesen recently completed a handsome block of first-class flats on West 84th street, near the Boulevard. Of the row, Nos. 205, 207 and 209 are still for sale. They are double flats, 27x85x102.2 each, and contain all improvements, including steam heat.

Josiah S. Lindsay, the well-known plumber, recently completed an eight-story fireproof store and loft building at No. 103 5th avenue. The front is very attractive and every department shows careful and conscientious work on the part of the builder. Three floors have been rented to the John J. Mitchell Co., publishers of fashion plates, and another to Leonard K. Smith & Co., woolens.

Of Interest to the Building Trades.

Mr. C. T. Purdy, in a paper read before the Association of Civil Engineers of Cornell University, said: "The day is coming, it seems to me, when the designing of bridges and the designing of buildings will be kept as entirely separate and distinct as hydraulic engineering and structural ironwork are now—when men who devote themselves to one subject will do little or nothing with the other, and this in spite of the fact that both concern structural steel and the same engineering principles. It seems to me so because both bridge construction and house building involve their own peculiar interests and considerations, some of them quite outweighing the points they have in common. The engineer who gains a place of responsibility and importance in house building work will in all likelihood have to deal with three classes of problems—problems in stresses, problems in business and problems in architecture."

When the Chicago Post Office was built, not a very old building, something extra was undertaken. The entire area of the building was covered with a layer of concrete, supposed to be thick enough to hold together under any circumstances. Immense piles of masonry were put in places and large areas were left unloaded, and gradually as the years have gone by the big layer of concrete has moved up and down under the unequal load, and the masonry has broken, and lives have been in danger, and one after another the great court rooms were rendered unsafe, until the building has finally been condemned. The Board of Trade have been compelled to remove the top of the tower of their headquarters at the head of Lasalle street, because the unequal settlement of the building threatened its destruction. We know better than this now. We have learned that the loads should be accurately calculated; that foundations should be proportioned to the loads; that live loads and dead loads should be kept distinct; that in all kinds of foundations the footing should be loaded uniformly, and if the centre of the load does not coincide with the centre of the resisting area some combination must be employed to accomplish the same end, and these facts hold true on the steel and concrete caisson, reaching down to the solid rock, as well as on the widespread steel grillage foundation, supported on soft and yielding clay.

Ivy spray, flowering and plain, on gold ground makes a very effective frieze; not our light green ivy, but the solid dark green of the moist lands of Northern Europe. Among recent flower and leaf designs for wall decoration those that strive to give the natural and not the conventional expression are the most successful. The one mentioned above suggests a trailing spray held against the evening sunlight and the effect is most beautiful.

Stencilling has been successfully applied to wall hangings and fabrics by Mr. Aldam Heaton, of London. He has proved, it is claimed, in the case of wall paper, the adaptability of the stencil in respect to tertiary and graduated colors to be in every respect superior to block printing where artistic results are desired.

The report of the Geological Survey shows that the value of the building stone produced in 1886 was $19,000,000, and in 1895 $34,688,816. In 1892, stone to the value of $48,706,625 was produced. The quantities are not given, so that it is not possible to tell whether this immense decline in the value of the production of about $14,000,000 was due to lower prices or a falling off in demand; probably both affect it. The brick-clay produced in 1886 was valued at $6,200,000, and the production of 1895 at $9,000,000. Of cement 4,500,000 barrels, valued at $3,990,000, were produced in 1886, against $8,731,401 barrels, valued at $5,482,254, in 1895.

The London Building act appears to have been drawn with the view of scaring architects and builders into good construction rather than to punish them for violations of the law. Recently, according to "The Building News," a magistrate had difficulty in finding a penalty for building beyond the building line, and in order to impose one had to do so under the words in the penalty clause, "and any other thing prohibited by the act."

Anent the recent warning of Superintendent Constable, which appeared in our issue of July 4, we are asked, what is the penalty for the violation referred to, and how is it enforced? The information asked for is set out in the building laws; the penalty is a fine of $250, recoverable by an action at law only.

The steel-roofing which has been referred to lately as more durable and economical than tin, is not recommended for damp climates, or where the atmosphere is impregnated with salt. In the interior, where the air is dry, they have made good records.

A Coroner's jury, called to investigate the death of a child, who, it was alleged, slipped under the railing in front of No. 52 East 118th street, and falling into the area, was killed. The area was protected by a single bronze bar railing, and the jury censured the Department of Buildings for consenting to such a railing being put up. Absolute security against a recurrence of lamentable accidents like the one recorded could be obtained by the placing of a stout wire mesh back of the open railing.

In the dispute between F. M. Mela and Boehm & Coon, referred to in this column on June 27 last, Justice Russell, of the Supreme Court, has issued an order enjoining the latter from altering the party wall between the premises of the former, No. 830 Broadway, and their own premises, No. 832 Broadway, in any manner so as to weaken it for the purposes of a party wall, and from digging or excavating near the party wall without proper shoring and supporting the same.

Trade Notes.

FINE WORK BY THE POMPEIAN MARBLE CO.

Contracts for interior marble, ornamental, stucco, papier mache, etc., recently completed and now under way by the Pompeian Marble Co., embrace such fine apartment houses as the Metropolitan, on the southwest corner of Boulevard and 88th street; the Wellesley on the northeast corner of West End avenue and 81st street; Fred. Haas' on the northwest corner of West End avenue and 91st street, and the Coranado, on the northwest corner of Park avenue and 81st street, Lewis Z. Bach, owner. At the Metropolitan, the handsome vestibule, reception room, columns and balustrade are the work of the Pompeian Co. The Wellesley vestibule is beautifully finished in sienna and parvanoza, the mantels throughout the house and the columns are also the work of the Pompeian Co. At the Haas house the company executed the marble work and ornamental plastering; and at the Coronado the vestibule, smoking room and interior marble work. The Pompeian Marble Co., of which Mr. F. Wennemer, the well-known architect, is proprietor, have excellent facilities at their new address, No. 1615 2d avenue, corner of 84th street and supply marble in all colors for wainscoting, columns, mantels, pedestals, churches, pilasters, etc. Any marble can be imitated. Besides the company does ornamental plastering in stucco, papier mache, etc.

The New Index.

The new enlarged Index to "The Record and Guide," already announced, is the only Index that will be issued. It will contain references to about 25,000 separate items, divided as follows: About 11,000 Conveyances, about 10,500 Mortgages, about 2,000 Leases, and about 1,500 Projected Buildings—making a complete Index to all real estate operations in New York City. The price will be $2 a year—$1 for an Index to each semi-annual volume of "The Record and Guide."

Readers who want this Index must send in their orders at once to the offices of publication, Nos. 14 and 16 Vesey street, New York City.

The Real Estate Market

There has been more life in the market this week, the aggregate investment reported being about $1,400,000. Trades have helped to swell the total. Lot selling has revived somewhat and contributed largely to the business of the week. The demand for other classes of realty shows no improvement.

The following are the comparative tables for New York Conveyances, Mortgages and Projected Buildings for the corresponding weeks of 1895 and 1896:

Tuesday's auction sales at the Broadway Salesroom were the only offerings of the week that merited attention, and they received all that could be expected from buyers at this season of the year. The second instalment of 24th Ward lots presented on that day by James L. Wells and Charles A. Berrian, by direction of the Northern Improvement Company, brought many new faces to the auction room, as well as a big representation from the ranks of the investors whose specialty year in and year out is unimproved property north of the Harlem River. For a July sale the number of persons present was surprisingly large, and, despite the heat, the great majority of them remained until its close. All things considered, the prices obtained were fairly good, but unquestionably much lower than would have been realized had the owners elected to have the sale take place two months hence. At the first sale by the company on May 28, the number of lots actually sold was 41, and for a total of $64,930. The average price was therefore about $1,583. At the time, it was announced that 50 lots had been disposed of for an aggregate of $77,905. It transpired subsequently that two of the lots had been bought in, the buyers of five more could not be traced or were found to be irresponsible, and two others are still held for the account of the person to whom they were knocked down, but who has thus far failed to comply with the terms of sale. In the meantime the company has secured purchasers for nine other lots that were outlined on the first auction poster, bringing the number sold between May 27 and Tuesday, up to the original 50. From the most reliable information obtainable regarding this week's sale, we conclude that out of the 77 lots knocked down 61 were disposed of for a total of $76,725, giving an average price of nearly $1,258, and 16 were bought in for a total of $21,295. The remaining 47 lots advertised were withdrawn without being offered. The lower average, compared with that of the sale in May, is largely due to a number of low-priced and rather ill-favored parcels in the extreme westerly end of the property having found buyers. A summary giving the location and respective purchasers of the 61 lots, that are booked to change hands as a result of the sale, is published in another column. It may be of interest to state that the buyer of a $2,000 lot on 183d street, on Tuesday, has already been offered an advance of $500.

On the same day, Bryan L. Kennelly conducted an interesting foreclosure sale of five East 66th street tenements, owned by the estate of the late Sheriff Gorman, whose executors, to avoid complications that might arise from the judgments that seem always to pile up against former Sheriffs, or their estates, decided to allow the property to go under the hammer at forced sale. Each of the parcels fell to an outsider at a low figure.

Wednesday witnessed the offering by Peter F. Meyer & Co., of six lots owned by the City, by order of the Commissioners of the Sinking Fund. Three on the south side of 151st street, 275 feet east of Amsterdam avenue, failed to elicit any bids at or above the upset price of $5,000 each, and necessarily remained unsold. Two lots adjoining were disposed of. The sixth parcel, a gore lot on the northwest corner of Convent avenue and 150th street, was supposed to have been sold for $8,000, but a trifling error in the descriptive pamphlet, discovered by the buyer later in the day, when he had tired of his purchase, enabled him to have the sale declared void by Comptroller Fitch, who returned the deposit paid. The lots were all offered subject to a perpetual aqueduct easement. Bryan L. Kennelly's voluntary offering of two lots on the east side of Amsterdam avenue, 49.11 feet south of 184th street, also on Wednesday, failed to attract a bid.

The week's adjournments of foreclosure sales were No. 168 West 101st street to the 28th inst, and a plot, 50x100, with frame dwelling, on the east side of 11th avenue, 50 feet north of 173d street, to August 14, both by William Kennelly.

Yesterday Wm. M. Ryan withdrew from foreclosure sale No. 77 Clinton place and 25x93.11 adjoining it on the east.

Otto Crouse, receiver of the North American Pyrogranit Company, announces that he will on Wednesday, Aug. 12, 1896, at 2 p. m., sell on the premises to the highest bidder the land, buildings, plant, patents, etc. of the company, of which he is receiver. The land consists of about 55 acres, at South River, East Brunswick, upon which the plant is located, and where is found the clay from which the specialties of the company were made. Detailed particulars of the property to be sold, terms of sale, etc., will be found in our advertising pages, or can be had by communicating with Otto Crouse, at No. 76 Montgomery street, Jersey City, and at the New York office of the company, No. 52 West 15th street.

The New Index.

The new enlarged Index to "The Record and Guide," already announced, is the only Index that will be issued. It will contain references to about 25,000 separate items, divided as follows: About 11,000 Conveyances, about 10,500 Mortgages, about 2,000 Leases, and about 1,500 Projected Buildings—making a complete Index to all real estate operations in New York City. The price will be $2 a year—$1 for an Index to each semi-annual volume of "The Record and Guide."

Readers who want this Index must send in their orders at once to the offices of publication, Nos. 14 and 16 Vesey street, New York City.

Gossip of the Week.

SOUTH OF 59TH STREET.

Leith & Glenn have sold the six-story brick store and loft building, 25x159.2x26x152, Nos. 91 Crosby street and 56 Marion street, south of Prince, to Max Hart, who will give in exchange the two five-story brick flats, with lots, 25x100 each, Nos. 1968 and 1970 7th avenue, west side, 50 feet south of 119th street.

Albert Sichel and Charles B. W. Savage have agreed to a trade in accordance with which the former will transfer the plot, 66x98.9, Nos. 204 to 208 East 23d street, on part of which an old brick factory is standing, and acquire from Mr. Savage in exchange for same and additional considerations, represented by property other than realty, No. 470 6th avenue and Nos. 49 to 53 West 28th street. The latter property forms an L 20x100x24.8x irregular, with a four-story brick building on the avenue, and 63.2x98.9, with three five-story brick buildings on the street. The 23d street plot is part of a parcel purchased by Mr. Sichel in June of last year, running through to 22d street, where it has a frontage of 87.10, and is being improved by the erection of a factory.

Paul F. Gonon has sold for Mary A. Grace the four-story brick tenement with lot, 20x75, No. 133 Avenue C, to Pincus Lowenfeld and William Prager.

Tim & Co. have sold for Mrs. J. West, the three-story dwelling with lot 16.8x98.9, No. 231 West 37th street, to J. Field at less than $13,000, and for M. Rady, the three-story dwelling, lot 20x70, No. 256 East 49th street.

Leopold R. Treu is the buyer of Nos. 141 to 145 Wooster street, the resale of which was reported last week. He will erect the eight-story building that was also mentioned.

Jennings & Wendehack have sold for Alfred Powell the old malt house property, 72x89.7, on the southeast corner of 11th and Dry Dock streets, with a lot 25x106 adjoining on the latter, to A. M. McLean, of Ridgway, Pa., for $42,500. A six-story brick stable is to be erected on the site.

Horace S. Ely & Co. have sold for Mrs. R. C. Williams the four-story stone front English basement house, with lot 16.3x98.9, No. 138 East 22d street, to J. Fred. Tams.

We were informed yesterday at too late an hour to allow for a verification of the statement, that Louis M. Jones had sold the plot, 75x100, Nos. 112 to 116 Bleecker street, on which excavations have been in progress for some time preliminary to the intended erection of a seven-story store and loft building. Plans had been filed for the structure, but it is understood that the Superintendent of Buildings has refused to allow its erection unless the fireproof provisions of the new law that went into effect a short time ago should be fully complied with. As the project would not pay under those conditions it is said to have

been abandoned by Mr. Jones, and the sale of the site to another builder has followed.

The four-story and two-story brick tenements, with lot 20x60, on the southwest corner of Broome and Pitt streets, have been sold by the estate of Patrick Boylan, who purchased the property for $12,700 in 1887. Broker, J. J. Goldstein.

NORTH OF 59TH STREET.

Jennings & Wendehack have sold for Mrs. Francis A. Clark the plot 100x125, on the northwest corner of 7th avenue and 120th street, for about $120,000 to a Chicago capitalist, who will erect a seven-story modern storage building, with a stable adjoining. A lease af the buildings has been taken by a prominent local firm for 20 years at a reported annual rental of $18,000.

E. Collyer has sold for the estate of Andrew Lester the plot 49.11x85, on the southeast corner of Lenox avenue and 135th street to A. J. Bruen, who will be content at present to erect a "taxpayer" in the form of a one-story brick store building.

Francis M. Jencks has sold for the Metropolitan Improvement Company, a corporation in which he is the moving spirit, the block front on the east side of West End avenue, between 79th and 80th streets, to a builder, whose name has not been obtained, but for whom Architect C. P. H. Gilbert will prepare plans for a row of residences.

Clarence F. True, who recently purchased and is erecting a row of dwellings on the southeast corner of Riverside Drive and 77th street, has bought the adjoining plot 102.2x100 on the northeast corner of the Drive and 76th street, and will improve the corner section of it, about 66x100, by the erection of three houses of extra size, one of which will front on the street.

Slawson & Hobbs have sold for the estate of Edwin A. Jackson a plot of eight lots on the north side of 122d street, 325 feet west of Amsterdam avenue.

Giblin & Taylor have sold the three-story stone front dwelling with lot, 20x100.11, No. 307 West 103d street, to a buyer who will occupy it. The house is the last of a row completed some time ago.

J. H. Horton, who recently bought Nos. 120 and 122 East 124th street, is reported to have secured, under contract, the 50-foot plot with old buildings adjoining on the west, and will erect a stable and loft building, covering the entire property.

S. Walters & Co. have sold for Horgan & Slattery the four-story brick dwelling with lot, 20x90, No. 816 West End avenue, between 104th and 105th streets, to E. D. Phelps, who will give in part payment property at Portchester, N. Y.

C. F. Rogers has sold to Grant Squires the four-and-a-half-story American basement dwelling, 15x61, and extension x100, No. 394 West End avenue, between 83d and 84th streets, which leaves one house unsold in a row of four.

Alexander Wilson has sold for Builder William C. Turner to George Heesemann two five-story flats, 25x85x99.11 each, that are nearing completion on the south side of 142d street, 150 feet west of 8th avenue.

Tim & Co. (Columbus avenue office) have sold for Rachel Redelsheimer, the four-story stone front flat, 25x70x102.2, No. 218 East 73d street, to I. Nelson. The seller bought the property last February for $15,000.

John E. Darragh has sold his present residentce, No. 552 West 148th street, a three-story stone front dwelling, with lot, 16.8x99.11. C. H. Vanneman is said to be the buyer.

The three-and-a-half-story dwelling with lot, 20x64, No. 415 West End avenue, is reported sold by Mrs. William S. Gardner for about $23,000.

Max Goldstein has sold for Mrs. Caroline Green the four-story stone front single flat with lot, 17x100.11, No. 156 East 115th street; for Mrs. Bertha Sigesmond the five-story single tenement, lot 20x100.11, No. 112 East 117th street; for Mrs. Anna Welp the five-story brick double tenement with stores, lot, 24.10x100.11, No. 154 East 118th street, and for Mrs. Rosina Christie at $26,000, the five-story brick double flat with lot, 25x99.11, No. 234 West 134th street.

Fairchild & Yoran and Kahn & Baumann have closed a trade between Mrs. Mary B. Ward and Cumming & Ferguson, involving the sale by the former of the five-story brick flat with lot, 25x102.2, No. 414 East 72d street, for $32,000, and the sale by the building firm to Mrs. Ward of the two three-story stone front dwellings, plot 34x100.8, Nos. 159 and 161 West 91st street, at $45,000. A liberal allowance should be made for trading prices.

NORTH SIDE.

Henry Harmon Neill has bought of Max Marx, at about $9,000, the three-story frame tenements with lot, 25.11x103, Nos. 708 and 710 East 145th street.

John M. Thompson has sold for Olof Johnson to Mrs. H. Garin the four-story double flat, 25x68x100, No. 458 East 148th street.

LEASES.

The lease of the Herald Square Hotel by Douglas H. Schneider to James H. Breslin, of the Gilsey House, was signed on Monday. The term is 21 years from Sept. 1, 1897, and the annual rental $168,000, or a total of $3,528,000. The lease is probably for the largest sum ever known in this country.

The statement of last week that John R. Todd had leased the seven-story building on the northeast corner of West Broadway and Walker street for 10 years at a gross rental of about $170,000, was erroneous. The amount should have been given as about $100,000, or $10,000 per year.

It is currently reported that a lessee for 10 years at $40,000 per annum has been found for a fifteen-story hotel to be erected by John B. Cole on the old Hotel Royal site, southeast corner of 6th avenue and 40th street. Mr. Cole is in Europe and neither his agent nor architect were able to confirm the report yesterday.

A Comlpete Index.

In answer to numerous requests from our subscribers, we have determined to issue a complete Index to

1. New York City Conveyances.
2. New York City Leases.
3. New York City Mortgages.
4. New York City Projected Buildings.

Thus giving our readers a complete reference to all real estate transactions. The charge for this Index will be $2.00 a year, $1.00 per semi-annual volume. Readers who desire these Indexes, either supplied direct to them or inserted with their bound volume, will please send in their orders at once (with money order), to the office of publication, 14 and 16 Vesey street, New York City.

Real Estate Notes.

How is this for a sign on an Astor building running through from Broadway to Crosby street, between Spring and Prince streets. "This entire property to lease for a term of years from Feb. 1, 1897, or will be improved by the erection of a ten-story fireproof building." It reads like a threat, yet cannot be one. How some people would rub their eyes in astonishment if the promise of a new building should be fulfilled? Think of an Astor tearing down a large and fairly presentable mercantile building to replace it with one of modern construction.

The report of the Commissioners of Appraisal relative to the new Fort Washington Park, near the Washington bridge, has been filed with the County Clerk. They have awarded for the property taken $804,868.20. The highest valuation put upon the property by the owners' experts was $1,548,183, and the lowest $1,301,990.21. The highest valuation testified to by the city's experts was $742,653.72. The awards are about 52% of the claimants' highest valuation, and 62% of their lowest. The report will be presented to the Supreme Court for confirmation on Aug. 7.

There is something new in the line of renting agents' signs displayed on the sites of two proposed Broadway buildings, south of 14th street. The owner of each shows a canvas across the front briefly describing the projected building and informing the public that store or lofts can be leased through any one of a half-dozen or more firms whose names and addresses follow and stand out prominently in bold letters. It looks to be an improvement on the old way of having the separate "To Let" signs of numerous agents hanging from every conceivable support from a side wall or old pile of brick, to a temporary wooden upright or piece of lumber of any kind.

It is said that in selling property east of the Bowery, a regular tariff has been established, regarding the falsification of the considerations expressed in deeds. The price ranges from $25 up and depends on the experience or shrewdness of buyer and seller. In the event of no agreement having been made on the signing of a contract, a wideawake seller of a tenement, we learn, frequently will insist on the actual purchase price being stated unless his "conscience" is quieted by the bestowal of a tidy additional sum. When that is done the buyer acquires the right to have inserted in the deed any amount of consideration that he desires. This peculiar condition of affairs probably accounts for the great number of lower East Side transfers that apparently express the considerations.

"I can tell you of a funny trade that has just been arranged,"

said a broker to a Record and Guide reporter on Tuesday. "The owner of a New York property, heavily encumbered, has contracted to exchange it at a valuation of $55,000. for a city house and two in Brooklyn, all pretty well mortgaged and valued together at $25,000. The trade is flat, the equity of each party being equal. Now, there are two brokers interested in it to the extent of $800 commissions, and as neither principal has any money at hand, they have been compelled to forego with the best grace possible the amount earned, and rather than have the trade fall through will await the future convenience of the owners. They may get something in the sweet by and by." It is almost needless to add that the particulars of the trade referred to have been omitted from our Gossip column.

The following 42 additional tenements, all but four of which are rear buildings, have been condemned by the Board of Health. Their occupants number 1,700:

Baxter street, Nos. 119 and 121.
Cherry street, Nos. 32, 34, 36, and 38.
Columbia street, Nos. 83, 85 and 87.
Greenwich street, Nos. 101, 103 and 156.
Mott street, Nos. 134, 136 and 138.
Mulberry street, Nos. 109, 119 and 121.
Roosevelt street, Nos. 14, 16 and 81.
Sheriff street, Nos. 86 and 88.
Spring street, No. 187.
Sullivan street, No. 17.
Thompson street, Nos. 58, 68, 70, 72, 74, 89, 105, 107 and 109.
Washington street, Nos. 105 and 107.
West street, No. 19.

Obituary.

Mayer Kahn, who for the last year or two has been a leading if not the foremost speculator in New York real estate, died suddenly at Ems, Germany, on Thursday, of last week. The cause of death was a hemorrhage. Mr. Kahn was about 55 years of age, and left his birthplace in Germany for the United States soon after attaining his majority. He settled in Philadelphia, and through his knowledge of a special line of dry goods and persistent effort, succeeded in acquiring a fair amount of capital with which he came to this city and entered into business on Canal street. About 15 years or so ago, he made his first real estate investment, entering the field when values were on the mend after a long period of depression. At first his purchases, all of a modest character, were in the lower East Side, Water street and its vicinity, and were mainly made through the office of Coudert Bros. He gradually extended his operations to more central and northerly sections of the city, and during the last few years showed a decided preference for speculations in property not far removed from the line of Broadway. Mr. Kahn developed a judgment of values such as few men can boast of, and rarely if ever was he at fault in an investment. As a trader he had few equals. His latest purchases were the Graves building, Nos. 483 and 485 5th avenue, the southeast corner of Broadway and 13th street, and the building adjoining it and fronting on the former thoroughfare, and the Everett House property at 4th avenue and 17th street. Title to these and many other parcels were in his name up to the day of his death. On Monday, the filing of two deeds from Mr. Kahn to Richard Deeves and Ferdinand Kurzman respectively, conveying to each a third interest in the Everett House parcel, under date of Nov. 4, 1895, was a revelation to the real estate public, as until then it was not known that he had any associates in that investment, or for that matter in any other, as he was supposed to be averse to partnerships in his speculations. He was very popular with brokers and his honorable methods of dealing with them won for him an enviable reputation. He has left a large estate and is survived by his widow, three daughters and a son—the youngest of the family. The remains have been embalmed and will be brought here for interment.

William H. De Forest, whose name was a familiar one in real estate circles in the late seventies and early eighties, died at his home in Summit, N. J., on Thursday, of heart disease. His age was 59 years. Mr. De Forest acquired great wealth in the silk business and invested largely in unimproved New York realty. He purchased the Hamilton Grange property, all or most of which has since been sold by his assignee. That and other unproductive properties proved too heavy a load for him to carry, and it was principally due to them that he found it necessary to make an assignment in 1883.

Personals.

David Stewart has been devoting his time from Friday afternoon to Tuesday of every week recently, to extending his knowledge of other cities and nearby summer resorts. On one of his trips a short time ago he took in the St. Lawrence, Quebec and Montreal. Later in the season he will indulge in a well-earned vacation.

John B. Campbell, of Hagan & Campbell, is occupying his cottage at Woodsburgh, L. I., with his family, but comes to town daily.

William M. Ryan and family are delightfully located for the summer in a roomy cottage at Arverne, L. I. He can, however, be found almost daily at his New York office.

Henry L. Center, who recently returned from Santa Barbara, Cal., much improved in health, is now at the Hotel Ampersand in the Adirondacks. His partner, William T. Innes, will return to the city on Monday after a vacation pleasantly passed at the same hotel.

N. L. Hess is in town after a four weeks' camping out experience along the St. Lawrence River. For the remainder of the season he will spend Saturdays and Sundays at nearby watering places.

James M. Stewart has gone to White Lake, Sullivan County, to remain until about Aug. 1.

Architect John De Hart and wife will leave the city on July 22 to spend a month in Maine.

R. Pehlemann, Jr., leaves to-day for Kingston, N. Y., and will breathe the pure air of the Catskills for the next ten days.

Frank Yeran joins his family at Kiamesha Lake, Sullivan county, on Saturday of every week, remaining over until Monday.

J. Montgomery Strong, of Strong & Ireland, is summering on his sloop-yacht "Choctaw," coming to town occasionally. He returned on Tuesday from the Atlantic Yacht Club cruise and leaves town to-day to take part in the Larchmont races. The "Choctaw" has won six races this year. On the 3d of August, Mr. Strong will join the New York Club cruise, and stop at Narragansett Pier for a couple of weeks after the finish.

Regulation-Heights of Buildings in Paris.

We sometimes have inquiries in regard to the laws regulating the height of buildings in the city of Paris; and as, judging by the newspaper accounts of hearings before legislative committees, they are often quoted inaccurately, it may be interesting to give a brief abstract of them, according to the revised code, which was adopted in 1884. Article I. of the decree says: "The height of buildings bordering the public ways in the City of Paris is determined by the legal width of these public ways for buildings abutting on them, and by the effective width for buildings set back from the street line. This height, measured from the sidewalk or paved space at the foot of the facade of the building, taken at the most elevated point of the ground, and including entablatures, attics and all other constructions in the plane of the front wall, must not exceed the following dimensions, namely: Twelve metres for public ways less than seven and eight-tenths metres wide; fifteen metres for public ways from seven and eight-tenths to nine metres and seventy-four one-hundredths wide; eighteen metres for public ways from nine metres and seventy-four one-hundredths to twenty metres in width; twenty metres for public ways (squares, streets, boulevards, quais, etc.), twenty metres or more in width." The decree goes on to say that the measurement for height shall be taken at the highest point of the ground only when the width of the building does not exceed thirty metres. Buildings of greater frontage than this, on sloping ground, must be of varying height, following the declivity of the ground, and when several houses are constructed by one builder, each house must follow the rule separately. Where a building is partly on the street line, and partly back, the whole must be within the limit of height of the portions on the street line. A building on the corner of two streets of unequal widths may be carried to the height fixed for the wider street; but the length of the facade at this height on the narrower street must not exceed two and one-half times the legal width of the narrow street. Where a building fronts on two streets at different levels, the point from which the height of the building shall be reckoned is to be the mean between the highest points on each street; but this is only on condition that the actual height of the facade shall not at any point exceed by more than two metres the legal height at that point. Where buildings, not on a corner, front on two streets, of unequal widths, or at different levels, the height of such facade shall be calculated separately according to the street on which it fronts; but if the greatest distance between the two facades does not extend fifteen metres, the height of the facade on the narrower street, or the one at the lower level may be carried to the height fixed for the wider street, from the highest level.—American Architect.

Questions and Answers.

BROKER'S COMMISSION.

To the Editor of THE RECORD AND GUIDE.

A real estate broker calls upon an owner, introduces a party intending to rent a loft; owner rejects offer, and is not favorably inclined to the business. Within about two weeks B, another broker, calls upon owner, accompanied by the same tenant, but with a higher offer of rent, which is accepted. Owner pays brokerage to B. Six months afterwards A claims commission. (1) Which of the two is justly entitled to the commission? (2) Does the fact of broker B having obtained a higher rent form an element in the question? (3) Suppose rent had been identical, who, in that case would be entitled to the commission? Thanking you in advance.

Answer.—(1) B has earned the commission; A has no claim whatever. (2) No. (3) B.—Law Editor.

CONVEYANCES.

Wherever the letters Q. C., C. a. G. and B. & S. occur, preceded by the name of the grantee, they mean as follows:

1st—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed which all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed can be impeached, charged or encumbered.

3d—B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no express covenants, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it.

The street and avenue numbers given in these lists are, in all cases, taken from the Insurance maps when they are not mentioned in the Deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made of them by the Department of Public Works.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that is is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date. Whenever the rate is not given, read as 6 per cent.

Mortgages against 23d and 24th Ward properties will be found all together at the foot of this list.

Editor Record and Guide:

Will you allow us to reply very briefly to Mr. J. E. Darragh's claim in your last week's paper that our lien filed against his 112th street property is unjust. All we care to say is that the security offered by Mr. Darragh and referred to in his letter, was neither ample nor satisfactory. Had it been so there would have been no lien filed—a step which we regret we have been forced to take quite as much as Mr. Darragh can object to our having taken it.

The Batavia and New York Wood Working Co.,
A. D. Scatcherd, Secy. and Treas.

[1]Editor Record and Guide:

A number of mechanics' liens have been filed this week against Mr. Henry C. Weeks as builder of the building at the corner of Varick and Spring streets, owned by the Trinity Church Corporation. Mr. Week's health has been. for the past few weeks such that he has not been able to provide for meeting his obligations as they became due, and these liens have been filed in consequence thereof. Satisfactory arrangements have been made with the various creditors and it is expected that all liens will be removed and claims settled so that the property may be turned over to the Trinity Church Corporation free from all claims early next week. By publishing this information you will greatly oblige,

Yours very truly, Frayer & Seaman, Attorneys for Henry C Weeks.

[2]Editor Record and Guide:

The lien filed by Clara Messer is unjust. The contractor has been fully paid to date and refused to proceed with contract. I will bond and contest this lien. Herman Wertheim.

---

[3]Editor Record and Guide:

The lien filed by Rueth & Bartolicius for $1,000 is unjust. They defaulted on contract, and I shall bond and contest lien.

Herman Wertheim.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for further particulars see the list of transfers under the corresponding date. Whenever the rate is not given, read as 6 per cent.

WHY do you depreciate the selling value of your building by the improper way in which your hard and natural wood is finished? The use of the **WHEELER PATENT WOOD FILLER** and two coats of varnish gives you a permanent, smooth finish, developing all the life and beauty of the wood.

BEWARE OF SO-CALLED JUST AS GOOD ARTICLES.

BUILDING MATERIAL MARKET

NEW YORK.

BRICKS.—There have been no really new developments. Business has continued slow and while no changes have been made in quoted values, we understand that in a number of instances sellers have granted slight concessions to do business. Supplies arriving from up the river have been moderately large and as demand has been limited, buyers continuing to take only such supplies as they have been in absolute want of, there have been further accumulations in sellers' hands, the daily surplus carried over varying from 35 to 40 barges, consequently there has been a general absence of tone to values, which have been quoted at $4 to $5, according to quality, and for specials $5.25 has been quoted. There have been no changes in prices in the market for pale brick, but demand has been less active. The range of values has been from $1.50@2.00. For Jersey bricks there has been a slow market, but as the arrivals have been limited, no changes have been made in quotations, selling at $3.50 and $4.00, and for the best grades $4.25 has been paid.

CEMENT.—Nothing especially new or interesting has transpired. The demand for Rosendale has been somewhat limited, but as there have been no supplies pressing on the market, prices have held steady. American Portland cement has continued to meet with considerable attention; trade having been on a fairly extensive scale and at full values; foreign cement has sold moderately at steady values.

GLASS.—There have been no developments of an interesting nature in the local market for window glass. The amount of business transacted has been very moderate, but prices have been steadily maintained. Advices from the Western market, however, have reported trade as fairly satisfactory at steady prices. Nothing further has developed as regards the question of wages during the coming season, but manufacturers, we understand, will resist any proposition for an advance, even to the expense of a strike. It is estimated that the production of American window glass during the past fire has not been 300,000 boxes less than last year's, and the principal manufacturers have an ample stock on hand to supply demand for the ensuing four months. There has been something of an increase in the demand for plate glass, and values have ruled steady.

LUMBER.—There have been no new developments of importance in the general situation of the market. Business has continued in a generally unsatisfactory condition, although we hear of a slightly increased demand for hemlock and State spruce from points up the river, but as a rule lumber has moved slowly, buyers having been quite indifferent in their operations. Advices from interior markets report a generally tame condition of affairs. Boston advices report that while the demand for spruce has been moderate, it has not been sufficient to fully absorb arrivals and values have been somewhat ragged.

In the local market for Eastern spruce there has been no noteworthy changes. The supplies coming forward to this market have continued very moderate as the English demand for deals and the call for lumber from South America has taken considerable timber that otherwise would have found its way to this market, and as prices now are no more than maintained with the comparatively small supply arriving, with anything like a normal movement to this market, prices in all probabilities would become demoralized. A limited amount of business has been transacted in West Virginia spruce in carload lots and prices have ruled fairly steady. State spruce has received slightly increased attention at about steady values.

Business in the markets for white and yellow pines has continued decidedly tame. Occasional orders are received, but there has been a total absence of a general demand and prices have shown very little tone. North Carolina has possibly received rather more attention, but we do not mean by this that there has been anything like activity to the demand, as trade in fact has been quiet; prices, however, have shown some steadiness.

The market for hemlock has shown a fair amount of tone. Latterly a moderate number of orders have been received from up the river and prices have been well maintained.

In the market for hardwood there have been no changes of a radical nature. There has continued a total absence of snap to trade and the general undertone has been easy, particularly for oak, maple and poplar. For plain and quartered oak, however, there has continued a fairly steady market as dealers hold only moderate stocks and consequently have not been disposed to make concessions to do business.

LATH.—There has been some irregularity to the market. On 'Change the sales made have been at prices ranging from $1.60@1.65, while out-of-town buyers have paid $1.70 and $1.75 for some good-sized lots. At the close a fair quotation was $1.60@1.65. There were offerings of pine lath early in the week and sales were made at $1.50 and $1.55, but during the latter part of the week there were none on the market.

LIME.—Much the same conditions have prevailed in the market during the past week as have been noted for some time past. There was very little snap to demand, the amount of business transacted having been small, but as arrivals have been moderate, supplies have not accumulated in sellers' hands, and prices have ruled steady at 65@70c. for common Thomaston and Rockland, and 75@80c. for finishing do. The market for State lime has continued largely nominal, in the absence of supplies.

NAILS.—No changes have been apparent in the general situation of the market. Business has been slow as buyers have continued to pursue the hand-to-mouth policy in their operations, taking only sufficient supplies to meet their immediate wants. Prices have shown no changes, with July purchases guaranteed against a de-

VOL. LVIII. JULY 25, 1896. No. 1,480

The new enlarged Index to "The Record and Guide," already announced, is the only Index that will be issued. It will contain references to about 25,000 separate items, divided as follows: About 11,000 Conveyances, about 10,500 Mortgages, about 2,000 Leases, and about 1,500 Projected Buildings—making a complete Index to all real estate operations in New York City. The price will be $2 a year—$1 for an Index to each semi-annual volume of "The Record and Guide."

Readers who want this Index must send in their orders at once to the offices of publication, Nos. 14 and 16 Vesey street, New York City.

The Index is ready for delivery to-day. No other Index will be published and readers who want it must subscribe, as it will not be furnished unless subscribed for. Price, $1.00.

THE banks have saved the financial situation once more. The seriousness of affairs in Wall street last Tuesday was apparent to everybody, and a panic was only prevented by the announcement that the banks of this city would replenish the gold reserve. Further confidence has been created by the action of the foreign exchange houses and the probability that they will devise a plan for checking exports of gold. Every panicky period that we experience shows how inadequate our banking facilities are. A means of checking gold exports is recognized as a necessity in Europe, and automatic provision is made for this purpose. It is done by raising the rate of discount by the Bank of England for Great Britain, and in Paris by the selling of bills of exchange on the point attracting gold, which have been purchased and held in reserve for that purpose by the Bank of France. Similar means are taken to prevent the depletion of its stores of gold by the Imperial Bank of Germany. As, however, these banks occupy a dominating position in the centres to which they belong, they can, to a certain extent, control the exchange market; but as we have here no institution occupying a corresponding place to that occupied by them, protection can only be afforded by concert of the houses dealing in exchange. It may be stated, too, that this want of a strong hand to govern is accountable for the fact that notwithstanding the unfavorable influence created by gold shipments at a time like this, houses can be found to ship the metal out of the ordinary course of trade and for a paltry commission. One result of a combination to sell exchange will be high rates for some time to come, even though relief may come from returning travel and the placing on the market of cotton and produce bills due about this time. As to general business and the movements of the stock market, the first is now not likely to improve until after the election, and the second depends so much on political and party movements that may change with the hour that anything like prophesy is unsafe and dangerous. The market is limited by the continued absence of outside buying, and within its narrow course it will move up or down according to whether the momentary circumstances are favorable or unfavorable to gold.

JUNE was a good month for business in Europe according to the statistical evidences that are now coming to hand, and the surface conditions, by which we temporarily judge pending the publication of official figures, do not show any more falling off this month than is natural in the heated term and the period of the annual vacations. In spite of the cheapness of money the most prominent of London banks have increased dividends for the half year just passed. The creation of new enterprises and the issuance of new loans is still actively pushed in the British metropolis. These represented capital applications for little more than the half year of more than in the whole of either 1891, 1892, 1893 or 1894, and about ten per cent only less than the total for 1895. The visit of Li Hung Chang is being made a State ceremony, pure and simple, and the eminent celestial is not to be drummed for orders during his stay in the British Isles. He is to be taken to dockyards and arsenals, however, in order that he may be made to understand that the facilities and plant are equal to turning out guns, explosives and ships in large and small quantities, and with economy, dispatch, etc. In France the proposal to establish a graded income tax is being vigorously fought in Parliament, and the continued decline in the new exposition bonds is a matter of surprise on the bourse. A good deal of nervousness is observable in Berlin, especially in bourse circles, where recent legislation hits hard, and at which the increasing agrarian demands are aimed. For the Empire reports are satisfactory, especially in the iron and textile trades. Vienna is chagrined that Hungary took its last mortgage loan to Germany, but this is only another evidence of the ill-feeling that is growing up between the two great states of the dual Empire. A low temperature and heavy rains have reduced the brightness of the harvest prospects. The official report of the Indian harvest shows that that country will export very little, if any, wheat from this year's crop. Something of a point is made of the exclusion of London from participation in the conference at Berlin on the new Russian loan; but it is a point not well taken, as London turned shy of Russians a good many years ago, as Paris has done recently, and only buys on big breaks. The trouble reported among the Australian banks is due to the reorganizations made three years ago, not having been thorough enough. At that time preferences were given which the continued depression of business and low rates for money have made it impossible to meet.

ONE of the mistakes that the East is making about the Silver movement is in underestimating the extent, the force and the sincerity of the opposition to the existing monetary system which it represents. It is not at all improbable that were a count of noses made to-day, it would be found that the "friends of silver" in this country considerably outnumber its opponents. Even in the East, though the advocates of 16 to 1, are scattered and are not in the ascendency, they are far more numerous than they are commonly calculated to be. It is the height of folly for the East to retort upon a movement so widespread as the Silver movement is, with arguments of the *ad hominem* kind. Nothing is settled by dubbing the Silverites, hayseeds, blatherskites, lunatics and demagogues. These epithets merely arouse animosity and preclude that very mental receptiveness which is prerequisite to the conversion of the Silver mind. This calling of names is an inflammatory proceeding. It works upon the mob far more powerfully than reason or any of the other softer influences. The hailing about of names between West and East, which has been carried on in a lively way for the last eight weeks, has intensified an already lamentable sectional animosity, and its continuance will be a sowing of bitter fruit. This Silver question is not at all likely to be disposed of one way or another at the next election, nor is the Chicago platform likely to be the extremest outpost occupied by the Silverites.

THE free silver agitation is affecting New York real estate interests more seriously than most people imagine. A down-town agent exhibited a letter the other day from an extensive property-owner, in which he was directed not to let any of the writer's untenanted stores or lofts for a period beyond the 1st of May next. The reason was stated as follows in the communication: "There seems to be a possibility of our currency becoming debased. If it should be, rents would naturally increase, and I do not care to make any further agreements that may result in my receiving after May 1st considerably less than the rental value of my property." And the letter was written despite the fact that alterations costing several hundred dollars are about being completed, with the owner and writer's consent, in one of his stores which a responsible firm had practically agreed to lease for three years and eight months, from September 1st, if the improvements proved satisfactory to them. That lease will now, of course, never be consummated. Another instance due to "silver" to which our attention has been called this week is the withdrawal for the time being of one of the largest shoe manufacturing firms in the country from negotiations that had been all but closed, involving the establishment of a New York branch in the wholesale shoe district, and the leasing for that purpose for a term of years of a building which the agent had agreed to modernize in accordance with the prospective tenants' views, at a cost that would amount to nearly as much as the first year's rent. A canvass of the leading renting agents would, probably, disclose a number of similar experiences. Among others, whose business has been rendered more difficult of accomplishment, are the mortgage brokers. Their complaints are becoming quite general, that it is like looking for a needle in a haystack to seek private capital that can be obtained on bond and mortgage without provision being made for repayment in gold. This is a drawback that is far-reaching in its effect. The individual owner and mortgagor will not perhaps consider it such if he is at all patriotic and confident in the nation's ability to tide over every difficulty, financial and otherwise. The loan broker's customer, however, is very frequently

the builder whose ready cash is all out, and who looks upon the gold clause in mortgages as a possible step toward bankruptcy. He fears he will be unable to sell his houses while there exists a possibility, no matter how remote, of the yellow metal commanding a premium. Prospective buyers would hold off, he believes, and decline to purchase until all likelihood of their becoming liable for additional money obligations had passed. Therefore he finds it necessary for self-protection to refuse to enter into any gold agreement, and the search for money that will be advanced on the terms hitherto prevailing is perforce continued by the broker. The week has brought to light several failures to secure the desired accommodations for builders when loans have been verbally agreed to by lenders who subsequently decided that they would require the added security of the gold clause. In one case the builder of a new row of eight houses who supposed his application for a loan had been accepted beyond peradventure, found at the eleventh hour that he would have to undertake another quest for the sum required. His disappointment is not unlike that met with by others in the same line of business. Fortunately there exist many moneyed institutions that are ready to lend on bond and mortgage in the old way, but as a rule they are available only for the investor, as the average builder's loan application demands the advancement of a larger percentage of the real value than they deem it wise to give.

THERE is a prospect that the long vexed questions pertaining to vault rights or privileges will be shortly taken into the courts and decisions obtained which will determine once for all a frequent cause of dispute between property owners and the municipal authorities. The contention of the city, represented by the Department of Public Works, is that vaults exist as a privilege revocable at the will of the grantor. On the other side it is contended that they are a right granted for proper consideration which cannot be annulled. The engineers of the department, in running the lines for the new water mains on Fifth avenue, discovered recently that the vaults of the American Safe Deposit Company, at that avenue and Forty-second street, extended twelve feet beyond the curb line, and as the whole of the space beyond that line is required for the mains, the vaults will have to be set back to that line. The company, it is said, refuses to make the change, alleging that the permit allowing the vaults to be constructed contained no proviso of revocation, and was, in fact, a grant in perpetuity, and threaten to invoke the protection of the courts if the vaults are interfered with. The department also desires to remove a vault extending almost all the way across the roadway in Gold street and claimed as the property of the New York Heat, Light and Power Company, which also resists any interference by the department. These two cases, if carried to the Court of Appeals, may settle not only general questions relating to vaults, but also claims particular to such as are located in the lower and older parts of the city. While it is the opinion of many lawyers that permission to build a vault comes within the catagory of a privilege and is revocable, others, equally entitled to attention, contend that there is a difference between those existing above and below Fourteenth street. Up to that line it is affirmed that the owner of adjoining property owns to the centre of the roadway, subject to the use of the streets as public highways and for other necessary public purposes; above Fourteenth street, as the land was condemned for streets it became the property of the city. But until the Courts have finally passed upon these questions the disputes that have been of some frequency of late years will be always liable to recur.

THE employment of a competent architect to watch over the æsthetic features of the new East River bridge would doubtless meet general approval, if the generality troubled themselves at all with matter of this nature; however, no opposition need be feared to the pursuit of so proper a course. The practical problems presented to the engineer apparently leave him no time to attend to artistic accessories, or his education makes him indifferent to them, with the result that his path is always marked with very ghastly results. If any evidence of the truth of this remark were needed, it would only be necessary to point to the extraordinary projection of the Brooklyn Bridge railroad track, in front of the City Hall station of the elevated railroad, and to the overhead railroad with which the engineers of the New York Central Railroad Company have blighted the upper part of Park avenue. The first, when observed from the street, somehow suggests the box of an old-fashioned mangle, and it is a sort of disappointment to find on examination that it is a fixture, and that it does not slide in and out on rollers. Neither terminal of the Brooklyn Bridge can be commended on artistic grounds, though there are plenty on which to condemn them. The bridge itself may be used to answer the charge that the engineering mind lacks æsthetic sense, but it only forms an exception to a rule whose existence is proved by too many examples to be denied. Among the mountains and on the prairies the engineer can carry out his own sweet will without doing much harm. There, in most cases his work is swallowed up, so to say, by the grandeur or beauty of the natural surroundings. In the city, on the other hand, his work has a prominence which gives it power to make or mar a thoroughfare. Up to this date it has not done much making, but has done a vast amount of marring. Consequently, and as a general thing, the engineer should only be allowed to work in the city in charge of a competent architect, the duty of the latter being to preserve the unities between beauty and utility as much as possible.

The Trade and the Department.

The petition which is in circulation for signature by architects and builders asking Mayor Strong for the removal of Mr. Stevenson Constable from the office of Superintendent of the Department of Buildings, is the second public manifestation of the discontent of the building trade with the conduct of the department by that gentleman. Last October a petition was presented to the Mayor asking for an inquiry into the management of the department, and this ended in a closed conference between Mayor Strong, Mr. Constable and Messrs. Bruce Price, Hugh Lamb, Wm. E. Bloodgood and Thomas Hastings, which was supposed to have removed all differences and provided for a happier state of things for the future. The existence of the present movement against the Superintendent proves that this supposition was unfounded, so far as it related to the removal of the discontent with the department in the minds of a large number, and who compose probably a majority of the people having business with it.

The complaints now made against Mr. Constable, and the objectionable acts of the department for which he is held responsible are similar to those that were in circulation last year; but, as at that time, the parties complaining are unwilling to state specifically, at the present time, their grounds of complaint for publication authenticated by their names. A number who were seen by a representative of "The Record and Guide" were apparently genuinely sore and indignant at their treatment by the department, and their complaints whenever supported by proper evidence would call for immediate redress. These complaints are, generally, a lack of system in the working of the department; unnecessary and vexatious delays in the passing of plans, the impossibility of securing attention in order that objections to plans may be explained away, and, more important still, to procuring a proper understanding of what is required of them; arbitrary and dictatorial requirements; a petty and annoying resort to "violations" and "unsafes," to remove which involves the expenditure of time out of all proportion to their importance from the structural point of view, etc., etc. Among other things it is also said that the department passes plans, or parts of plans at one time and refuses to sanction exactly similar ones at another; that it shows a want of courtesy and consideration toward some architects, while showing a partiality toward others. Besides these there are charges that it would be improper to mention without something more than a mere assertion to support them. While refusing to go on record in print against the department, the men who make these charges say they are ready and willing to prove them on being given proper occasion and opportunity.

While the people who make these charges are evidently sincere, and while others who have no direct complaint against Mr. Constable assert that he is insisting upon a quality of construction never before required in this city, and which the law never intended should be required, there are others of standing and repute who uphold him and his department in their present policy. They allege that much of the trouble complained of is due to the ignorance of the law on the part of the architects and builders themselves, and their inability to clearly set out in their plans and applications what they really propose to do. These also assert, and they have some support in the ranks of the complainers themselves, that the department has not sufficient means at its disposal to do its work properly, and until its appropriation is considerably increased there must, necessarily, from the lack of adequate assistance and facilities, arise many complaints from time to time; further, that in order to secure the ability that should control the policy of the department, the salary of its chief must be increased to much beyond what it stands at to-day. There is, in fact, a general belief that a department having the supervision of so important an interest as the building business of the city of New York, representing an enormous annual expenditure, ought to be put into a first-class position and receive an appropriation generous enough to maintain its dignity, and to do its work efficiently, and that this it not the case at present.

All this goes to prove that the relations between the building trade and the department, and indirectly the city itself, are very unsatisfactory and call for the earnest consideration of the proper authorities. So far as the criticisms on Mr. Constable's management itself are concerned, it would be a good thing if they could be investigated by a proper and competent tribunal and the faults laid wherever they belong. Nothing less than this will remove the discontent referred to above and which will exist so long as nothing is done to decide who is in the right and who is in the wrong. Mr. Constable has invited such an investigation by stating through the press, in reference to the complaining petition, that he would be glad to answer before the Mayor any charges

made, and it would be by far the best to give him this opportunity and thereby remove a state of feeling that cannot be otherwise than prejudicial to the vast building interests of this great city. Such an investigation would be valuable also in directing the attention of the public to the pecuniary and other wants of the department. The petition referred to is as follows:

That said department has been and is, under the management of its present superintendent, inefficiently and incompetently conducted. That it has been and now is managed and controlled in such manner as to cause great and unreasonable loss and damage to the owners of property in this city and to architects, builders and others engaged in the erection and alteration of buildings in this city; all of which it is hereby charged is due to the inefficiency and mismanagement of the present superintendent, and in support of the foregoing charge your petitioners submit the following specifications:

First—That the said department, through its superintendent, has caused violations and "unsafes" to be filed against buildings, both erected and in course of erection, without just or reasonable cause.

Second—That said department, through its superintendent, has neglected and refused to remove violations and "unsafes" arbitrarily and without just cause filed against buildings, both erected and in course of erection, within reasonable time after the unjustness of such filings had been shown.

Third—That the said department, through its said superintendent, has arbitrarily and without sufficient cause refused to sanction or approve plans and specifications submitted and filed as required by law for the erection and alteration of buildings.

Fourth—That said department, through its said superintendent, has unreasonably and unnecessarily delayed in passing upon, whether for approval or disapproval, plans and specifications for the erection and alteration of buildings submitted as required by law.

Fifth—That said superintendent, in his dealings and business with architects, builders and others having business with said department, has been and is arbitrary, overbearing and unreasonable.

Sixth—That by such arbitrary, overbearing and unreasonable conduct the said superintendent has caused loss and damage to owners, builders, architects and others having business with said department, and that the general management and conduct of the said department by its present superintendent has been and is of such a character as to be a decided detriment and hindrance to the beginning and prosecution of building operations in this city.

The following names have been signed to the above petition, and it is said to have received many more signatures, which were withheld at the request of the persons affixing them for obvious reasons: J. R. Thomas, Hugh Lamb, of Lamb & Rich; John W. Smith, Francis Drischler, John B. Dolin, A. Spence, Small & Schuman, J. H. Valentine, Edward L. Tilton, James C. Caldwell, Joseph Greever, D. Burgess, W. C. Dickerson, A. E. Walker; Michael Bernstein, D. T. Atwood, L. Macleod, Kurtzer & Rohl, James O'Hare, J. H. Burchall, Albert A. Curtis, W. A. Hall, H. G. Knapp, Nathan Langer, H. Palmer, Thos. C. Vache, Charles Macnay, Chas. H. Smith, T. Reynolds, Owen Healy, A. Gallatin Deering, G. H. Budlong, Paul F. Higgs and John A. Linscott.

Recently another petition to the Mayor was circulated calling his attention to the needs of the department, and asking that he use his influence in securing it a sufficient appropriation, this was signed by most of the leading architects of the city. Its circulation gave rise to a report that the signers of this document were interesting themselves in favor of the Superintendent personally in regard to which one prominent architect stated: "The petition had only reference to the department and its needs, it was not personal; had it been at all personal I would not have signed it."

Superintendent Constable was the recipient of a handsome and valuable gold watch on Wednesday; the donors were his subordinates in the department.

Stoop Encroachment.

Ignatz Boskowitz, owner of the house No. 50 West 72d street, made application to Judge Andrews in the Supreme Court on Thursday for an injunction until trial, restraining John T. Farley & Son from interfering with plaintiff's stoop, which is claimed to encroach six inches on the defendant's adjoining premises. The houses are on the south side of 72d street, 250 west of the Park. The dispute hinges on whether a general description by street number or that by metes and bounds in the claim of title shall govern. Boskowitz, it was claimed, got title without notice of the encroachment. When the stoop was built there was a common ownership of the lots, and therefore it was argued an implied easement was raised in favor of Boskowitz's premises. In opposition it was argued that the doctrine of easements implied from common ownership does not exist in this State. Messrs. Farley, builders, cannot complete and sell their house while the encroachment continues, and if their valuable property, worth $100,000, is narrowed from 25 feet 6 inches to 24 feet 6 inches the discrepancy of a foot between that and the next house will depreciate the price. The court took the matter under advisement.

The Proceedings Against Rear Tenements.

The motion made by the Board of Health for the appointment of Commissioners of Appraisal in the matter of thirteen rear tenements condemned by the Board under the Tenement House Act of 1895, was denied this week by Judge Lawrence in the Supreme Court, on technical grounds. The law of 1895, relating to condemnation of buildings by the Board of Health, says: "Such proceedings shall be instituted and carried on in the manner prescribed by the Code of Civil Procedure, except as modified by this act." The code requires that the petition shall state that the plaintiff "has been unable to agree with the owner of the property for its purchase, and the reason for such inability," and further, "it must state the value of the property." As the petition for the appointment of Commissioners of Appraisal was defective in these points Judge Lawrence held that the Supreme Court could not take jurisdiction. The result of this is that proceedings will be delayed until the Board of Health can comply with the requirements of the Code of Civil Procedure referred to. The most important point on which the opinion of the Court was sought, however, was that of the constitutionality of the act of 1895,and on this Judge Lawrence said: "As I stated in the argument, except in the clearest of cases, it is not proper to declare an act unconstitutional at Special Term, but I am free to say that from my examination of the act I do not consider that the constitutional objections are well founded." This expression of opinion is a decided encouragement to the Board of Health to continue the crusade against rear tenements. The technical objections they can easily overcome. Had they been beaten on the point of constitutionality, at least, their hands would have been tied until the opinion of the higher courts was taken, and then only freed in the event of the act of 1895 being sustained there.

The New Index.

The new enlarged Index to "The Record and Guide," already announced, is the only Index that will be issued. It will contain references to about 25,000 separate items, divided as follows: About 11,000 Conveyances, about 10,500 Mortgages, about 2,000 Leases, and about 1,500 Projected Buildings—making a complete Index to all real estate operations in New York City. The price will be $2 a year—$1 for an Index to each semi-annual volume of "The Record and Guide."

Readers who want this Index must send in their orders at once to the offices of publication, Nos. 14 and 16 Vesey street, New York City.

The Index is ready for delivery to-day. No other Index will be published and readers who want it must subscribe, as it will not be furnished unless subscribed for. Price, $1.00.

A Question of Restriction.

Walker & Lawson have failed in their application to the Supreme Court for an injunction restraining Henry T. McNulty from altering his residence on the northwest corner of West End avenue and 104th street, to enable it to accommodate two families. The property is within a district restricted to residences and the application was based on this fact. Justice Russell, who heard the motion, said: "It would be straining the enforcement of restrictive covenants of this kind for the court to adjudge before trial that the defendant could not alter the inside of his house, even if such alteration might make the structure convenient for the occupation of one family and part of another. Up to this time there has been no effort to use the premises otherwise than as contemplated in the title deeds. When such prohibited use occurs, the courts may enforce the covenant, but not till then. No injury, except of a shadowy character, comes to the plaintiff's rights, whatever they may be, before the building becomes stamped with a sentimental odium, if such it be, of being used as an apartment house in a region devoted to a supposed more genteel manner of living."

Concerning Real Estate Agents and Brokers.

Broker T. Alonzo Thorne, of No. 150 Broadway, states that there are but few good second mortgages offering, and no oversupply of 6 per cent quick money in the market; he has many applications to make loans of money on second mortgage, and would like to have it distinctly understood that his business is, as regularly advertised on the page with the New York City Conveyances, viz.: To buy and sell second mortgages after they are made only, and that business men regard such mortgages in the same light as a second issue of bonds or stock by any corporation, railway, or otherwise, and that many of the same factors enter into the determinating influences that fix a value on them, notably, the amount of the first mortgage, the present condition and future prospects of the property as a steady income producer, the condition of the money market, and the supply of, and demand for, the security.

John Armstrong, the old established and successful agent and broker, of No. 1984 3d avenue, corner of 109th street, has, for the convenience of a growing clientele, opened a West Side branch office at No. 2270 8th avenue, near 122d street.

Removals.

Architect A. O. Hoddick, succesor to the firm of Hubert, Pirsson & Hoddick, has removed his office from No. 117 West 58th street to No. 57 West 24th street.

Obituary.

Garrett J. Byrne, the well-known Harlem surveyor, died at his home, No. 2289 7th avenue, on Monday last, after a short illness. Garrett J. Byrne, Jr., will continue his father's business.

Copies Wanted.

Fifteen cents each will be paid for copies of the "Record and Guide," Nos. 1296, 1302 and 1303, delivered at our office in good condition; also 40 cents for Indices to Volumes 17, 41 and 43.

Constructing sewer and appurtenances in Tremont avenue, from existing sewer in Jerome avenue to Aqueduct avenue.

Of Interest to the Building Trades.

Trade associations, both here and abroad, are putting difficulties in the way of the use of bicycles by journeymen plumbers in going from one job to another. When the matter is looked at fairly it seems that the bicycle was especially made for such a purpose; but it is a canon of the unions that natural development shall be impeded as much as possible, when it favors the employers. Across the Atlantic the objection is not so much to the use of the "machine" as to its ownership; the men say the bosses should supply them. On this side, the unions seem to think it will raise the minimum of usefulness to which it is their policy to limit a mechanic. They, however, raise no objection to its use for the union's account, as we see by the report that a delegate of Electrical Worker's Union No. 3 used a bicycle in carrying on a fight with a rival union, which was finally forced to join his own. To be consistent the union ought to condemn the use of the bicycle by walking delegates—certainly the title of the latter does not justify it—as tending to restrict the distribution of the amount of work available.

We have seen nowhere any information regarding the Central American Exhibition to be held at Guatemala next year. Many of our manufacturers of building specialties would doubtless like to have representation there. What are the State Department and the trades' associations doing about this?

"The Iron Age," referring to half and half solder, says that it is not what it presumes to be. Originally it was intended to designate solder made from 50 per cent tin and 50 per cent

lead, but little by little the term acquired only a conventional sense, and although the jobbing and manufacturing trade are aware of this consumers are fooled into the belief that solder branded half and half is what it purports to be. In some cases the proportion of tin is 85 to 90 per cent to 15 to 10 per cent of lead. It is not an explanation of the very common complaint of leaking joints.

Builders in New York have a great many difficulties to overcome in the prosecution of their work, what with quicksands, hidden creeks, etc.; but, probably, none has had a harder time or more unpleasantness in sinking foundations than a London builder recently had. This man took a building lease of a piece of ground in what is known as Little Britain, and commenced operations, presumably by tearing down an old building on the site. In sinking his foundations he discovered that he was in a pit in which were buried the remains of victims of the great plague of 1666, and that there were there tons of bones and many coffins. The authorities required these to be decently disposed of, involving an unforeseen expense of $10,000, for which there was no recovery. This made a very serious addition to the cost of the operation, which seems to have been only a moderate one.

The free employment bureau, authorized by an act passed by the last session of the Legislature, has been opened at No. 331 East 14th street. It is in charge of John T. McDonough, Commissioner of Statistics of Labor, and its purpose is to provide communications, free of cost, between those desiring work and those needing help.

Buyers of tin plate are cautioned against accepting the mark I. C. on American tin and terne plates as applying only to full-weight plates. "The Metal Worker" says that all kinds of weights are sent out as I. C. I. C. imported cokes, 14x20, were always understood to weigh 108 lbs. to the box, lighter weights being marked on the box. It would be a distinct benefit to the trade if this or a similar plan became the rule for native plates.

Here is a legal decision which will interest architects intending to enter competitions for municipal work, rendered in the case of Audsley v. City of New York: The United State Circuit Court of Appeals holds that where, pursuant to authority given by an act of legislature, a board of commissioners advertised for plans for a building to be erected in behalf of their city, and the advertisement stated that the plans offered would be submitted to a committee of architects, who would select the six best plans; that the designer of the one adjudged to be the best would be appointed architect of the building, and the designers of the other five would each receive a premium of $2,000, and various plans having been submitted the committee of architects reported; but before a decision was made by the board of commissioners the act authorizing the building was repealed, none of those who submitted plans could recover against the city for services in preparing plans, as there was no evidence that any one had been selected, either as the first or that he was among the next five best.

Outing of the Buildsrs' League.

The second annual outing of the Builders' League of New York will take place on Tuesday, August 4th, next. Those who wish to participate should apply at once to John P. Leo, president of the League, at No. 24 East 125th street. The first of these outings was, it will be remembered, very successful, and there is no doubt that the forthcoming one will be equally so.

The Real Estate Market

A sale of the magnitude of that of the St. James' Hotel property, proves to have been necessary this week to permit of the publication of fairly good figures in our estimate of the total involved in the transactions known to have been closed. The aggregate investment is about $1,550,000. Had the big sale gone over again, as it did for many weeks, the market would have had to be described as dull almost beyond precedent. That is, the precedent established during July for fifteen years. The public is buying cautiously, so cautiously in fact that the field is almost entirely in the hands of the very few professional speculators who remain in town prepared to entertain propositions from brokers.

The following are the comparative tables for New York Conveyances, Mortgages and Projected Buildings for the corresponding weeks of 1895 and 1896:

Foreclosure sales, exclusively, comprised the auction offerings of the week. In none of them the public betrayed any interest, leaving the plaintiffs in the various actions practically in complete control. The following parcels were withdrawn on Monday: Nos. 230 to 234 East 96th street by Bryan L. Kennelly, and Nos. 330 to 334 East 98th street by William Kennelly. The sales adjourned beyond next week were those of No. 569 West End avenue, to Aug. 6, and No. 52 East 121st street, to Aug. 17, by Philip A. Smyth and Bryan L. Kennelly, respectively.

Charles A. Sterling, receiver, will sell at auction on the premises, on Wednesday, Aug. 12, 1896, at 2 p. m., the dock, buildings, machinery, materials, tools, etc., of Cofrode & Saylor, Incorporated, located at Black Tom Island, in the Harbor of New York Bay. A full inventory of the property can be consulted at the office of Dickinson, Thompson & McMaster, counsel, No. 1 Exchange place, Jersey City.

The new enlarged Index to "The Record and Guide," already announced, is the only Index that will be issued. It will contain references to about 25,000 separate items, divided as follows: About 11,000 Conveyances, about 10,500 Mortgages, about 2,000 Leases, and about 1,500 Projected Buildings—making a complete Index to all real estate operations in New York City. The price will be $2 a year—$1 for an Index to each semi-annual volume of "The Record and Guide."

Readers who want this Index must send in their orders at once to the offices of publication, Nos. 14 and 16 Vesey street, New York City.

The Index is ready for delivery to-day. No other Index will be published and readers who want it must subscribe, as it will not be furnished unless subscribed for. Price, $1.00.

Gossip of the Week.

SOUTH OF 59TH STREET.

H. H. Cammann & Co. have finally succeeded in closing a contract for the sale of the St. James' Hotel property on the southwest corner of Broadway and 26th street, for the executors and trustees of the estate of Paul Spofford to a Philadelphia syndicate, at a price not made public, but believed to be not far from $900,000. The dimensions of the plot are about 94.4 on Broadway, 109 feet on 26th street, x98.9x118 feet in a slightly irregular line. The rate per square foot at $900,000 would be about $83. The existing six-story structure is to be removed by the new owners and a sixteen-story fireproof store, office and loft building erected from plans completed some months ago by Architect Bruce Price. The builders selected are J. E. & A. L. Pennock, of Philadelphia and this city, who, it is understood, are members of the purchasing syndicate.

The same brokers have sold for the Roosevelt estate to Mitchell A. C. Levy the old five-story building, lot 18.4x106.5x18.7x106, No. 4 Liberty street, and the five-story brick business structure formerly a dwelling, with lot, 25x92, No. 4 East 20th street.

Fay & Stacom have sold for $43,000 the six-story brick tenement with stores, lot 25x100, No. 33 Forsyth street, 25 feet north of Canal.

Adrian H. Muller & Son have sold for Cassimer De R. Moore to Willard Parker Butler, at a price under $27,000, the four-story dwelling with lot 17x98.9, No. 143 East 36th street.

Golding & Whitehouse, conjointly with Samuel Williams have sold for the Billings estate the four-story dwelling with lot 25x125, No. 272 Madison avenue, west side, between 39th and 40th

streets, to Leander E. Whipple. The consideration agreed upon is close to $100,000.

Max Weil has sold at a substantial advance the five-story brick tenement with stores, 25.5x50x60, No. 773 10th avenue, west side, 24.2 north of 52d street, purchased by him for $21,900, at a foreclosure sale last December.

Max Goldstein has sold for Leopold Polatschek, the five-story three family flat, on 25-foot lot, No. 412 West 49th street.

William Prager and Pincus Lowenfeld have bought of Francis Frey, Jr., and Gustav Frey the old four-story brick store and tenement and rear building,lot 25x87.6, No. 57 Allen street, and from Mary E, Thorndike and others at about $13,250, the similar tenement with lot, 25x100, No. 57 Cannon street, between Rivington and Delancey streets.

Joseph Goldman is reported to have sold the old three-story brick house and lot, 18.9x72.10, No. 77 Thompson street, purchased by him for $8,900 about ten years ago.

NORTH OF 59TH STREET.

Frederick Williams has bought of William E. Glover, a lot 25x99.11, on the south side of 144th street, 275 feet west of 7th avenue, and from Sarah E. Glover, the full lot adjoining on the west. He will erect a three-story stable on the plot for the use of a company of which he is president.

Max Goldstein has sold for Bernhard Rosenstock the two five-story stone front double flats, 25x85x100.11 each, Nos. 254 and 256 West 115th street.

A. E. Thomson has sold for William McReynolds to Isaac F. Cohn, a lot 19.6x99.11, on the south side of 132d street, 206.6 west of Lenox avenue.

Stephen McCormick has sold for J. V. Donvan the five-story double flat with lot, 25x99.11, No. 66 West 133d street, for $26,250, and for Johanna Chapman the three-story stone front dwelling with lot, 16x100.11, No. 119 East 128th street, for $11,500.

Sylvester C. Hill has sold his four-story stone front residence, with lot 25x100.5, No. 37 East 67th street, for about $57,500, a price $2,500 less than he paid for it about ten years ago.

The four-story stone front dwelling, with lot 15.8x102.2, No. 67 East 80th street, has been sold by Mrs. Jacob S. Ritterband.

C. F. Rogers has discovered that his dwelling, No. 394 West End avenue, announced by him last week as sold to Grant Squires, and so reported in this column, was only leased to that gentleman.

NORTH SIDE.

J. Clarence Davies & Co. have sold the southwest corner of Popham avenue and Palisade place, 40x100x71, to M. E. Stremmell, for $4,000, also 50x106, on the south side of 149th street, 100 feet east of Vanderbilt avenue, to B. Volkening, for about $5,000.

LEASES.

Golding & Whitehouse have leased for Henry A. C. Taylor, the dwelling No. 4 East 72d street, to Joseph T. Thompson, and with E. H. Ludlow & Co., for Mrs. Van Rensselaer Fairfax, the dwelling, No. 34 East 49th street, to Dr. Clarence G. Campbell. Both leases are for three-year terms from October 1st.

Real Estate Notes.

Now that the St. James' Hotel property has, after many delays, been disposed of to Philadelphians, who have acted with the proverbial slowness of the citizen of the Quaker City, it will be as well to anticipate another proposed sale of property bearing the name of the same honored saint. We refer to the St. James' Methodist Episcopal church, with rectory and school house, three stone front buildings, occupying a plot, 99.11x145, on the northeast corner of Madison avenue and 126th street. A sale of the property to a downtown congregation has been all but agreed to, but as no papers have been signed it may, of course, never reach the contract stage. The main edifice, we understood, fell under the ban of the Department of Buildings some time ago, and being declared unsafe the acceptance of plans by the Building Superintendent for its restoration was made a condition of the proposed sale. The alterations will cost $7,000, and, the plans having passed, a change in the ownership of the property is expected to soon occur. When arranged, it will be followed by the purchase of a new and more westerly site by a committee of which William A. Martin is chairman and Architect Milton See a member, and plans for the as yet embryonic edifice will be drawn by the firm in which the latter is a partner.

Geo. R. Read is to have control of the tall Park row building which will be erected by the William M. Ivins syndicate. Mr. Read is advisor in chief regarding all details of construction of the new sky-scraper just as he was of its neighbor, the Tract Society Building. The project may, therefore, be said to be in the best of hands.

We are loath to believe that the news dispenser of the Real Estate Board of Brokers has joined the gold brick manipulators who make a specialty of adroitly presenting as "news" to the unsuspicious daily papers real estate information that is almost as musty as a quotation from ancient history. We prefer to ascribe his notification to several evening and morning papers last Saturday of a sale of an Ann street parcel that had been consummated and recorded on the previous Wednesday, to an oversight or carelessness induced by the humid condition of the summer atmosphere to which everybody has had to pay tribute for some time back. The sale referred to appeared at the head of our Conveyance list last week, and for that reason, if no other, should not have been palmed off as news emanating from so trustworthy an organization as the Real Estate Board of Brokers.

Trade Notes.

WATERPROOFING BUILDINGS.

The Caffall process, which has for many years been extensively employed in and around New York and throughout the United States, for waterproofing, hardening and preserving exterior and interior walls of buildings of brick, stone, marble, terra cotta, stucco, etc., continues to meet with the success which its successful application warrants. Many prominent architects and owners testify to its efficiency in preventing the disintegration of stone, the weather staining of brick work, the crumbling of mortar joints, and the efflorescence of salts, so very noticeable on many of the finest buildings. Experts say that in order to prevent the destructive action of cold, rain, snow, frost, deleterious gases and sea air, a substance is demanded that shall be, under all circumstances, insoluble and impenetrable by the elements and that the substance employed should not alter or conceal the natural appearance of the surface of the stone, etc., and should also be colorless and invisible, producing no glossy or glazed appearance whatever, requirments that are claimed for the Caffall process, judging by results. Further information and estimates of cost may be obtained from Caffall Brothers, No. 41 Union square, who invite correspondence.

EXPERIENCED HOUSE CLEANERS.

The Manhattan House Cleaning Bureau, of No. 143 West 26th street, has a good record for thorough work. Mr. James E. Garner, the proprietor, is a pioneer in his line, and besides having an extended experience, is active and able, possesses the best of facilities and employs an experienced corps of workers, the latter at times numbering 150 men. Here is a list of some of the more prominent buildings recently cleaned by the Manhattan House Cleaning Bureau: New Clearing House, for Builders Marc Eidlitz & Son; new East River and Bowery Savings Banks, Cameron apartment house, Hebrew Home, 106th street and Columbus avenue, new Court House, West 54th and 53d streets, for Builder James D. Murphy; Packard's College, East 23d street, new apartment house, corner of Central Park West and 69th st., for Builder M. H. Gillespie; Nordica, 113th street and 7th avenue, for Architect George Keister; New York Hygeia Ice Co.,offices at foot of East 52d street, and Stewart, Howe & May's stores, at No. 131 and 133 Spring street.

CONVEYANCES.

Wherever the letters Q. C., C. a. G. and B. & S. occur, preceded by the name of the grantee, they mean as follows:

1st—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed which all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed can be impeached, charged or encumbered.

3d—B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no express covenants, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it.

The street and avenue numbers given in these lists are, in all cases, taken from the Insurance maps when they are not mentioned in the Deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made of them by the Department of Public Works.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that is is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date. Whenever the rate is not given, read as 6 per cent.

Mortgages against 23d and 24th Ward properties will be found all together at the foot of this list.

JUDGMENTS.

In these lists of judgments the names alphabetically arranged, and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week, and satisfied before day of publication, do not appear in this column, but in list of Satisfied Judgments.
